NEW LAW PROPOSED:

INTRODUCTION:

Something new here, a homeless person writing a new City Ordinance that would greatly reduce the problem of homelessness, in order to see what support it gets. One of the reasons that homelessness is so prevalent and never-ending is that there is never any homeless perspective included in planning. Homeless are thought of as having no choice, being inferior, that sort of thing. California's homeless are architects, photographers, journalists, psychologists, lawyers, plumbers, and a lot of other professions. We homeless journalists tell their story.

My connection to law is that I practiced law while in prison for crimes I did not commit (fraud). I also functioned as a Police Chief, and there is a huge pile of evidence on that, none of it on the web. It was all from before there was an internet, but all those paper files still exist today. So maybe it should be me to write a law to try to minimize problems for the homeless and problems with the homeless.

Homeless are homeless because the City and County tore down all the inexpensive housing, and for no other reason. Environmental Impact Reports ignore what happens to the human habitat when you tear down 1,000 rental units per year, each one renting for \$20 a week, and replace them with rental units costing \$425 a week and up. That is what was done. Now there is an attempt to place homeless into motor vehicles and that is a good idea. It is the "Mostest For The Leastest" which is the aim of all good government spending and ruling society. A better idea would be to force the real estate developers to create 20,000 rental housing units that each rent for \$35 a week, but that is not going to happen. Society is too corrupt to even admit its mistakes, much less correct them. That's what's wrong with Todd Gloria for Mayor, but we do support his proposed legislation to prohibit private prisons, because most of us poor people expect to someday live in one, whether we violate any law or not.

SPECIFICS:

Parking Ordinances dealing with Sleeping and Living in Motor Vehicles:

To sleep in your vehicle, including an RV, buy a permit from any City of San Diego Fire Station, during whatever hours it sells permits. It costs \$60 and is good for two calendar months. That makes your cost about a dollar a day. There are 6 permits issued every year: Jan.-Feb., Mar-Apr, May-Jun, July-Aug, Sept-Oct, and Nov-Dec. There is NO discount for buying a permit in the middle of a permit

period. If you cannot afford the \$60, that is 5 hours of Community Service Work, at \$12 an hour, City Minimum Wage, and you can sign up for that. You might be put to work making sure other folks do not disobey these rules.

Money will be used to administer the program, and your permit will have the license number of your vehicle written on it with a magic marker. It is NOT valid on any other vehicle. If you switch vehicles, you must buy another permit.

You can park in one place, on a residential street only (no business areas) for a maximum of 48 hours in one location. You may not make noise, odors, trash, nor bodily wastes and must use the containers provided. When you move, after 48 hours or less, your new location must be at least 2 city blocks away. You may not re-use any location until the end of the 60-day permit, when you buy a new one. Then you can go back and re-use your old locations, 48 hours each.

Staying too long in one spot, re-using locations, leaving behind trash or wastes, all cause revocation of your parking permit and you will NOT be issued a new one. You will be arrested, handcuffed, and your vehicle impounded. Your possessions will be placed into homeless storage. You may give permission for your vehicle to be sold to pay your bail. Judges are to be given discretion including possibly granting a parking permit or sentencing violators to Community Service work. Jails cost money, plus have better amenities than the sidewalk.

Now, let us work on getting motor vehicles for all of our homeless. This solution solves the worst parts of our homeless problem without just making money on it for greedy nonprofits. It does not employ the friends and families of politicians to be unnecessary professionals, either. It involves minimal tax money, and although there will be enforcement costs, those will be less than now. As for containers for PISS, SHIT, and trash, well, would you rather have that all over the place, like NOW?

There needs to be adjustment of this law as it progresses, too, possibly prohibiting parking on certain city blocks, plus an incentive system regarding those persons who are consistently good neighbors. If you are a good example for a whole year, maybe you get to use a specific Mission Bay Park parking lot overnight, or you get assigned your own 24/7 spot in an industrial area that has no neighbors. You're a Security Guard with a Weapons Permit? You work for an Armored Truck company? We could really use you parked overnight in the warehouse district of Kearny Mesa, right next to wherever we've been having problems. You have a gun and cell phone.

ADDITIONAL "MOSTEST FOR THE LEASTEST" SHOTS CALLED:

Make the new Homeless Navigation Center into a storage facility with offices and 50 apartments for Think Dignity, one of the few area nonprofits that have actually been successful at accomplishing something useful on the homeless problem. An alternative would be Third Avenue Charitable Organization (TACO) which operates out of the First Lutheran Church on Third and Ash, downtown. Third choice

would be Alpha Project. This storage center would take pressure off the homeless storage center on 16th St. in the East Village, plus allow temporary storage for homeless to use the downtown library. Ideally, the library could turn on its Wi-Fi 24 hours, too.

NEWS MEDIA NEWS:

This section covers things which concern the poor and the news media at the same time.

At some point I will do a thorough review of the Gary Warth front page article about me in the San Diego Union-Tribune. More important things right now. Add to my resume being the first Underground News Editor ever to be featured on the front page of a major daily US newspaper. Warth challenges the existence of my police agency in Milwaukee, and there is nothing on the web because the web did not exist. My FEIN, Federal Employer Identification Number, was 39-1072295, and my State Tax Number 196340. These are paper documents, of course, from 1970. I also had the alternative name of A5A Services, spelled A-A-A-A-A Services, which gave me the Contractor Number of "One", since licenses were issued in alphabetical order every two years. It also made me first listing in the Yellow Pages, an ancient directory of business services. How's that for one of the many Asterisks that make up my life?

San Diego, being America's Homeless City, deserves to have a homeless Senior Editor, myself. I ask this from the News Media: Stop lying for the police, no matter how much of that abandoned drug money they give you. Stop lying by printing or broadcasting fake "Press Releases" and "News Briefings" given by special interests like governments and service providers. Stop the innuendos that begin with "According to..." or "(he/she) said..." when you know these people are lying their ass off. Thank you. Have an editor insert a line of two of opinion, if allowed.

Fantastic U-T article by David Garrick, Feb. 5, Page B-1, "Vote set on legal living in car", quotes attorney Colleen Cusack as having defended many cited for car camping the past few years. The follow-up article is <http://www.sandiegouniontribune.com/news/politics/sd-me-homeless-parking-law-20190205-story.html> and gives the unanimous City Council decision, with everyone trying to claim credit for it. The old Ordinance was already found to be Unconstitutional by a judge. •

Gary Warth has a nice article but also containing some Fake News "January S.D. Homeless Count Shows Spike", San Diego U-T, page B-1, Feb. 6. San Diego Police have been arresting homeless for having tents on sidewalks during the cold and rain. The incorrect thing in the article is that the homeless in jail are part of the official PITC (Point-In-Time-Count) required by HUD. The truth is that the police go out and arrest between 2 and 3 thousand sidewalk homeless the day before the official count, so that they are in jail and not counted. The number of homeless in jail is counted, but does not become part of the official homeless count because people in jail are not considered to be homeless. They are also not considered to be sheltered homeless. In 2017 there

were 2,600 homeless in jail who were not part of the annual count. They were interviewed. By the way, arresting homeless the day before the official count, so that they do not get counted, has been going on for 30 years. There was also a lot of **Fake News at the BDC** (Basic Dignity Coalition) meeting on Feb. 7, some of it from MTS and some from RTFH (Regional Task Force on the Homeless). See "Meetings" Section for that report on Fake News. •

David Garrick reported Feb. 7 in the U-T page A-1 that "**New Home Parking Spot Rules May End**", as San Diego may no longer require that new housing developments contain so many parking lot or underground parking spaces when built. This would make it easier and less expensive to build new housing, and crowded beach areas will continue to have the old rules requiring many parking spaces on that issue. Sounds win-win to me, with increased real estate profits plus lower costs of constructing new housing. Watch some asshole try to re-define what a "Beach Community" is, to try to take advantage of the situation. •

Gary Warth, San Diego U-T Sun. Feb. 10, Page B-1, writes "Racial Disparity Among Homeless", about how there are a disproportionately large number of Black homeless, compared with San Diego's population. He also quotes that there are currently 15,000 asking for help because of being homeless, which is part of how we arrive at our "20,000 Provable Homeless" figure which we use. The PITC (Point-In-Time Count), HUD's official number, usually only counts less than half that number, and that gets used as our "official" number of homeless, as inaccurate as it is. There are also an average of 2,500 homeless who are jailed by police the day before the count, so that they are in jail and not counted on the sidewalk. Yes, the number in jail IS counted, **but does NOT get added to the official count**. So, add the 15,000 asking for homeless help to the 2,500 in jail and you get 17,500 Provable homeless, which is within 8.75% of the 20,000 figure we use. There are another 15,000 homeless who refuse to be identified as such, and will not cooperate with being counted nor interviewed. These are the "Intelligent" homeless, who realize that if they go on record as homeless they are unlikely to get a decent job nor decent housing the rest of their lives. I have been introducing Warth to a few of us Intelligent homeless, so he can see the whole picture. •

Warth's Feb. 12 article, "Hillcrests Homeless Focus of Outreach", page B-1, tells of County workers being trained by the nonprofits, but none of this is any different, just more intense. He gets it all correct, with no Fake News at all. However, **NEWS FLASH: Homeless have been Outreached (Harassed) two thousand times each, spending years and years being interviewed for thousands of different programs, and have always gotten NO HELP, ending up back on the sidewalk again.** At what point do you tell the Outreach worker to go fuck themselves? **This is an enormous waste of time and money, has no chance of fixing the problem nor making it better, and whoever proposed this needs to get out of government.** I wrote an article in the San Diego Reader about Outreach Harassment and the Cycle of Homeless Rotation. Please, learn something before you have "ideas" which "help" the homeless. **The article linked tells how the "Homeless Rotation" works. Understanding this concept is absolutely fundamental to being able to understand the homeless problem here.**

Tuesday, Feb. 19, **Gary Warth** in the San Diego Union-Tribune "Golden Hall to be Temporary Homeless Shelter": One of the rubber circus tents will have its 150 residents moved to the second floor of the City Hall Complex for 3 months. We suggested using Golden Hall over 8 years ago for homeless housing. (Read the archives!) The interesting thing is that the 3rd floor of Golden Hall is to become a cold-or-rain temporary overnight shelter, per the Mayor's Press Secretary, Greg Block. **EDITORIAL: Our criticisms** of these moves are that Father Joe's Villages and USD will both be involved, and they make billions of dollars for the **Catholic-Mormon Mafia**, which creates homeless by operating the **Real Estate Cartel** in San Diego. Nobody can prove that and also stay alive, but you already knew that, right? A whole lot of very intelligent people read this newspaper. Just like the rest of the news media in San Diego, we need to censor out 90%. "Journalism. Helping you stay uninformed, because the best stuff is always censored out." -John Schlitz (Kitchin, 1970's) •

Excellent article by **Ken Leighton**, **San Diego Reader**, Feb. 21, "Marksman takes aim at homeless student problem", which tells of ex-military veterans having problems with homelessness and suicide. He advocates a homeless overnight parking lot at "Palomar", but that is Palomar College, not Palomar Trolley (Food-4-Less). •

Great cover article by **Matt Potter**, **San Diego Reader**, Feb. 21 edition, "Street Lights That Spy", about the new NBC-RCA-GE street lights that have cameras. That second part was kept a secret from the public, the cameras called "Sensor Nodes". I wrote about all this a year or two ago, but never got taken seriously. Big Brother, the Catholic-Mormon-Baptist Mafia, is watching you. The Reader has guts, messing with NBC. They'll send you to prison for something you didn't do. In my article, I made the editorial comment that corruption in the form of bribes paid to the Mayor and City Council were obvious. •

Vince Meehan, long a notable Graphic Artist with the **Union-Tribune** and also the **Downtown News** of SDCNN (San Diego Community News Network) has a nice article as a reporter and photographer in the latter, Feb. edition, front page, about the Street Angels, a public service nonprofit. I never considered them any more than an organization to brainwash poor folks into Jesus-propaganda, but it is always nice to get another perspective. Meehan has taken an interest in the San Diego homeless situation and understands it. We are fans of each other. •

The **NAEH (National Alliance to End Homelessness) Winter Convention** is being held in San Diego, and this was reported on by Gary Warth, San Diego Union-Tribune, Page B-1, Feb. 22 edition. I attended same a few years back and wrote several long articles on it, a few of them published. I objected to how homeless are counted, and suggested ways of having an accurate count instead. The event is a photo-op, primarily, as well as an educational workshop and a chance for dinner and cocktails in San Diego. A thousand people get together to see how they can make more money on the homeless problem. That included politicians and even the media. Reminds me of the January "Project Homeless Connect" which is also the same every year, a Media Event with very little real purpose. Let us keep talking about homelessness forever, and folks will get so tired of hearing about it that they will tune out. I get it. •

Warth also wrote on the front page of Local News, Feb. 23, about the visit to San Diego of **Secretary of Housing and Urban Development Ben Carson**. He was here for the NAEH convention (above article) and also toured the **Alpha Project** rubber tent, both photo-ops to support the oppressive policies of President Trump, and minimize Public Relations over the \$10 million HUD decrease in funding for San Diego every year. He said a lot of great-sounding things injecting a great PR spin. Your courageous government in action, helping to cover up a problem. Your tax money in action, being wasted. Warth gets it all right, but of course cannot fill in some of those blanks in this article, because the U-T has advertisers. •

Top-shelf article on **SANDAG** (and MTS) by **Joshua Emerson Smith**, Feb. 23, **San Diego Union-Tribune**, front page (A-1) about how SANDAG has a billions-of-dollars cash shortfall, and intends to make San Diego transit better, at an increased cost to taxpayers. He does not mention that **investments in real estate caused these cash shortfalls**. The U-T, of course, has a lot of real estate ads, so this is understandable. Things like this are why Underground newspapers exist. •

FROM THE PUBLISHER: If there is enough time, we often provide links. **The big challenge:** Do we publish on-time, or provide enough research and clear wording to get it right? It is deadlines that cause problems, but advertisers demand them. We have no publication deadline, but only a target deadline. I invented that concept while Associate Editor of Milwaukee Street Sheet (1970). A newspaper that finally publishes when all of its stories come together and are completed. Add that to my resume. It is a futuristic concept. I still think I could turn a huge profit running the San Diego Union-Tribune. I wish I had time to write an article on that. It is typical of the things my whole life consists of. John Kitchin

OTHER NEWS:

Currently under investigation: President Trump may have been involved in San Diego County intentionally infecting the homeless with the **Hepatitis A** virus. Supposedly, Trump's original plan was to infect homeless with leprosy, making them contagious and unclean "walking dead". Trump apparently also **sold all of our NASA rocket secrets to Russia**, and now they have a new generation of rockets, capable of defeating our nuclear defenses. I wish I were making this up. There is only an investigation at this point, but believable journalists are involved. **Definitely factual:** He recently bragged that he defeated **Socialism in South America**, but no nation there has ever been Socialist in history. France and Canada are a little bit Socialist, but in general the **ONLY Socialist nations on the planet are Denmark,**

Norway, Sweden, Holland, and Finland. Maybe he has Socialism confused with Fascism or Communism, which are the exact opposite of Socialism. The Soviet Union called itself the Union of Soviet Socialist Republics, but they had no Socialism at all, just Fascist Communism. Some of the confusion may have to do with the writings of Karl Marx, which were entirely re-written by Capitalists after he died. If you follow "Marxism" it now leads you to Communism, not Socialism. The writings of Jesus and his followers were also re-written by Capitalists after his death. • **God's Extended Hands**, a missionary Baptist church on 17th and Island St., downtown San Diego (East Village Bottoms Ghetto District) is under siege from the City, which wants to close down its overnight shelter. Although homeless refer to the church as "God's Extended Finger", it also has food and shelter programs that help the poor and homeless. And, there is no requirement that you have to be White, even in Racist San Diego! • There are new Outhouses at 16th and G, which will help reduce the amount of PISS and SHIT on our sidewalks. A block south on Market St., 13th and Market actually has public flush toilets, the first new downtown toilets installed since the city eliminated 32 downtown toilets over a 16-year period. Now downtown is only down to minus 31 on toilets. • Under top secret British Common Law, a Third Party Presidential Candidate may not win an election, and the number of votes for them must be altered to make that happen. So, the **Bernie Sanders Coalition**, which wants Sanders for President and Elizabeth Warren for Vice-President, will have to capture the Democratic or Republican nomination to have any chance of winning. Having British Common Law the law in the United States is part of the "**Articles of Surrender**" which ended the **Revolutionary War** with England. It is a secret document, just like all British Common Law is secret, but the US Surrender hangs on the wall in the chambers of the Middle Templar Bar in London. The Bar is the secret Mafia organization that attorneys belong to. •

Meetings:

The **Basic Dignity Coalition** (ThinkDignity.Org) met Thursday, Feb. 7, 6 PM, at their usual meeting place, the Moniker Warehouse in the old Snowflake Baking Co. building on 16th and G, East Village. There was a record turnout of 29, the only meeting with more than that was the first meeting, ten years ago, 32. I am one of the founders of this group, the BDC, and covered about 105 of their 110 meetings. There were good causes represented, plus a certain amount of Fake News and propaganda. This is a good thing, because whatever lies got told only made it out to 29 people, but I will be debunking whatever was a lie, and I go out to a minimum of 45,000 people who read my every word. My e-mail list is about 147,800, but only one out of three actually reads all this.

This group gets together attorneys, journalists, homeless people, judges, community leaders, service providers, philanthropists, philosophers, and more, all in the same room, one hour per month. It is a powerful experience, and free pizza is served as well.

One man said he was there to represent **MTS** and would forward our comments to their Board. I questioned him about all the **Racist stuff done by MTS** the past few years, such as splitting Route 11 into White 11 and Black 11 (the new Route 12), using the **Real Estate Racial Red-Line** at Park and Market (Park is 12th Avenue at that point). The routes no longer connect, so Blacks cannot ride past the Race Line. He said that route changes are due to ridership, but that is absolute bullshit when you look at 30 or 40 different race-related route changes. I also pressed him about **Black neighborhood overcrowding** of busses, and many fewer busses than in White areas. This group was polite, has dealt with MTS ten years, and is not interested in more B.S. MTS also took out bus stop seats and bus stops near dollar stores. That is Classist (Class Warfare) and Ageist (anti-Elderly).

Another man said he was the **Homeless Representative on the RTFH, (Regional Task Force on the Homeless) Governing Board**, but he was clearly misinformed or uninformed, and tried to sell RTFH perspectives to us, not our perspectives to them. So he actually represents RTFH rather than the homeless. **It means that they still do not have anyone on that Board who represents the homeless.** Let's have a Native American help group that contains no Native Americans, right? That's what that is like. I have complained about this problem nearly 20 years, before they even existed, and housing had its own City agency. He said the RTFH is doing all the right things to help, which was the **biggest Fake News of the night**. They make jobs for the children of wealthy people doing "Professional" things like "Unnecessary Housing Navigator" and support inhumane shelters instead of housing. They are the group most responsible for our continuing homeless problem. They offered me participation on

the Board, but there is no way I could have made a valid difference alone. I can make more difference with articles in this newspaper. I was not even welcome at their annual party, despite specifically being invited by Michael McConnell, who sponsored it. I told him it was okay to not invite me, went to the party, and was continuously insulted, just like the sidewalk homeless. I consider RTFH to be the most corrupt organization in local government. We need to put them out of business at all costs.

Else continues the expansion of the homeless problem, forever. Like MTS, they are just a huge Cabal (Gnostic Group), one of the Secret Conspiracy Agencies that runs all of society. A street gang that addicts its members to human love (Spirituality) instead of heroin. Obey, or your supply of dope gets cut off. **ALL of their programs don't work, plus make problems worse.** The Homeless Representative told us that he would fight to make sure the police allow everyone to be counted, that the count was accurate, and that he could put enormous political pressure on the police and elected officials. Outrageous bullshit from someone who knows nothing whatsoever about the San Diego homeless problem. He is probably spokesperson for the Mormon Godfather and his real estate cartel that runs San Diego. Reminded me of FOX Fake News or maybe Mormon AM Radio. The smell in the room made me dream of perfume. **We Editors are allergic to bullshit. It makes our skin break out into editorials.**

"Meetings" continues after this editorial:

EDITORIAL: (Food for thought, but not 100% serious, obviously)

Unnecessary Professionals Wanted

We need Unnecessary Housing Navigators, unnecessary case workers, unnecessary surgeons, unnecessary psychologists and psychiatrists, unnecessary administrators, unnecessary data processing experts, and unnecessary public relations specialists. We're spending the \$78 million (now \$68 million) in HUD money every year, and need more professionals to augment the many other professionals we don't need but employ anyway. **If we don't spend the money, we lose it.**

You will help rake in billions of dollars for the Catholic-Mormon Mafia, supposedly helping the homeless problem, without actually supplying any needed nor wanted help at all. **No new housing will be built, unless it is Nazi Prison Camps.** Stalags for prisoners of Class Warfare. To apply as an Unnecessary Professional, answer these questions:

Who are you related to who is politically powerful?

What friends do you have in the Catholic-Mormon-Baptist Mafia?

What experience do you have at Class Warfare, such as Repression, Oppression, Torture, Police Murder, Propaganda, and Unjust Criminal Convictions?

We also need Special Propaganda Agents to help sucker people into donating money to the Mob.

Apply to San Diego's elected officials, or to the Godfather (Mormon, not Italian), or apply to the Nonprofit Organization of your choice. The Mob is an Equal Opportunity Destroyer.

END OF EDITORIAL. Back to "Meetings", continued:

This RTFH Representative also said that the police do not intentionally arrest homeless the night before the count, so that they are in jail and not counted, but the police have been doing that for 30 years now. Big lie. The number in jail is counted, but NOT added to

the count totals of homeless, so they don't count. Politicians say, "The homeless in jail are counted", and everyone assumes that count is used in some way, which it is not. Police arrest an average of 2,500 homeless, just before the count, every year. **That skews the 7,500 sidewalk homeless to just 5,000.**

There were also two **Black activist groups** present, one trying to make **Rapid Rehousing** work here, and the other trying to **Recall District Attorney** Summer Stephan over refusing to prosecute police who murder Black people just for being Black.

Rapid Rehousing is a HUD program (United States Dept. of Housing and Urban Development) that gives homeless free apartments for 6 months while they look for work. The program works very well, but not in San Diego where jobs pay less money than the cheapest rent costs. To afford to pay rent in San Diego you need to make at least \$35 an hour, and HUD confirms this number. What jobs pay this much? I asked if they would help a Rapid Rehousing client start their own business, and she said they would. You can make that price as an Independent Photographer, Plumbing Contractor, Heating and Air Conditioning Contractor, Electrical Contractor, Independent Ship Fitter, Glazing Contractor, or Locksmith, all of them self-employed. **The cheapest rent for a rat-infested small room in a machine-gun neighborhood, with a free leaky roof and broken-out windows is \$425 a week.** Welcome to San Diego. That is over \$10.50 per hour, 40 hours a week, for rent alone, not even including utilities. That is what makes San Diego America's Homeless City, that and the fact that our jobs pay notoriously poorly. Yes, you can live in a Nazi Stalag for somewhat less, but why would you want to?

The other **Black Activist group** present wanted to Recall District Attorney Summer Stephan over never arresting cops when they commit outright intentional murder. Well, she didn't know that the new rules make it almost impossible to Recall any politician. It's an exaggeration to press a point, but can you collect 8 million signatures in just 15 minutes? Plus, if you try to go after a corrupt? District Attorney they just convict you of a crime you didn't commit, and send you to prison. Happened to me in Milwaukee. District Attorneys fabricate evidence and hire expert witnesses to lie, if they are corrupt.

I suggested the solution of having the **CRB (Citizens Review Board)** independent of all government, with their own Prosecutors, Detectives, and Judges. That could cut down on police homicides, bribery, beatings, and similar. I once worked in Internal Affairs, very secretly. Cops kill "snitches", so I had to be the one guy who could not possibly be a cop. I was a Police Chief on the private (Police Protective Organization) side of law enforcement. We are bodyguards, bank alarm operators, armored car companies, and Private Investigators, often hired by police departments. Most San Diego cops used to be military, trained to kill people rather than arrest them. A large amount of material was censored out of this article.

FEEDBACK:

The most common response to the **Front Page article about me in the San Diego Union-Tribune** is that I should be writing editorials for them on their Editorial Page, which people said was entirely boring. I agree with them most of the time, and have written editorials for many of the national dailies, so I can do that. In the past, I submitted several Op-Eds, but they never published any, under Cox and then Manchester. I have some ideas on how to make a print newspaper profitable, and that would benefit everybody. If you take in big cash on something, you do not "attrit", you expand. I'm not a very good reporter, but I am still a hell of an editor and editorialist. Even if you don't like what I am saying,

the object is to sell newspapers, silly. Have another Editoralist tear me apart. Everybody gets what they want to read. 55 years experience.

SNIDE COMMENTS:

We need a Border Wall around the White House, because it is obviously not in the same country as the rest of us live in. Thanks to Nancy Pelosi for finally bringing sanity into the government after two years of chaos. • Trump is trying to make us the United miStakes of AmeriKKKa. • The only thing in the whole world more corrupt than the Democrats is the Republicans, unless you include the Catholic-Mormon-Baptist Church and their Freemason M.A.F.I.A. (Mason American Federal Intelligence Agency). George Orwell's book "1984" was about The Telephone Company being the nation's only employer by that year, but the truth is that the Catholic-Mormon-Baptist Church ran all businesses by that time. It was the year they put my small business out of business by charging me unjustly with Felony Fraud. • Welcome to San Ysidro. If you're here, you are probably lost. • In the past 50 years California went from Surf City to Stoned City. Gidget moves to San Diego and gets pregnant by a biker who sells dope. The movie becomes a western, with lots of sheriffs and guns. The horses are mechanical ones, made of steel, sold at the used car lot. An RV is just a covered wagon with better plumbing. •

CENSORED OUT:

INVENTIONS, DREAMS, PRAYERS, AND THE SPACE ALIENS. Pages K1 thru K5, small white notebook. Sigmund Freud first figured out that the dreams of people also consisted of things that the Creator Aliens who built this planet wanted them to know. They are telepathic and often transmit ideas when we are sleeping. He invented Dream Analysis and that line of Psychoanalysis continues to this day. Psychologists and Psychiatrists have ALWAYS been aware of the two big secrets, Hypnosis-Gnosis-Spirituality-Kosher-Eucharistics-Tantra-Tantrism, and the way the space aliens interact with us.

"Understanding the Limitations of God" feels sorry for "God", species *Deus omnipotens* (almighty God), the aliens who created this planet, designed our bodies, and later brought us here. They cannot learn by reading, listening, watching a movie, attending classes, none of that. They only way they can obtain knowledge is to make copies of memory contained in the brains of other species, usually after those individuals have died. We do their research for them because they cannot do that. I call this article the most important article in human history. Can't get it past the censors. It follows my work on Genetic Memory, which is the chemical acquisition of knowledge. I was the foremost expert on the planet in 1979, which is how I got to meet a lot of aliens.

DONATIONS were not accepted for many years because it caused too many problems of all different sorts. Now, you can donate if you want, using PayPal.Com, account nz9f@hotmail.com.

Money will be used to feed poor people, buy office supplies, provide antibiotics, house battered women and drug addicts that need help, and do some basic political activism.

Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.
