LEAD EDITORIAL - BASICS

## New Bill Wastes \$1.5 Billion Tax Money

### Stinky Legislation, Poop from the Cash Cow - Said to help homeless, but doesn't

A big victory for funding political campaigns, but a big loss for everyone else, the things in this bill draw lots of attention, sort of like a big brass band, but nothing in it helps anyone, much less the homeless. Proposed by Todd Gloria, who helped cause our present homeless problem and helped make it worse over the years, AB-3151 spends money on the same things that have never worked the past 30 years. It involves no developers of low-cost housing, no new housing being built, more money for the institutions (called PSH, for Permanent Supportive Housing) which homeless people avoid and call "Hitler-camps", no jobs for the homeless, the usual Look-Good, Feel-Good, wasteful and useless spending just like in the past. Solutions at the end of this article, next page.

It spends money on Housing Navigators, for example, but do we need them to find the one vacant rental that is open to homeless people? How can 50 Housing Navigators help find that one rental and get someone into it? All available housing goes to folks judged to be more qualified than the homeless. No one can find housing that does not exist, no matter how good a Housing Navigator they are, and this bill does not build any new housing. It does set aside some money for prison-camps (PSH), but that is not housing.

So, would you move into a Hitler-camp? If you don't you are being "Uncooperative", or "Failing to Cooperate". Even so, all of our Hitler-camps are booked completely full, anyway, their total capacity being less than 20-30% of all homeless. And, this bill does not significantly change that, either. Like the rubber termite exterminator tents, sharp rocks, outreach harassment, drugged food, lack of showers and toilets, and the whole putrid mess, **the whole genre of "Homeless Solutions" reeks worse than the stink of politicians trolling for campaign money.** (Because that's what it really is.)

Now, in return for lots of Political Campaign ads spent their way, our media will run "Feel-Good" articles on the billions and billions of dollars spent, and the one-in-a-million homeless who are a success story. Statistically, San Diego County spends less money per person on help than anywhere else in the United States, number 1200 of our 1200 counties. You are proud of that? We get a tiny amount of money from the Veterans Administration to help take care of a large number of injured veterans, used in the same abusive ways. The homeless are a new Social Class

invented by President Reagan in the 1980's and our numbers have swelled ever since.

...the whole genre of "Homeless Solutions" reeks worse than the stink of politicians trolling for campaign money.

San Diego avoids methods that work, because there is way more money to be made via failure.

Success at terminating the homeless debacle kills the political Cash Cow of re-election contributions!

Let's look at the nonsensical things this Government Waste Bill does, item by item: SPECIFICS

**Shelter Diversion:** This is talking people out of going to a shelter (all are full anyway, except those beds that are required to be kept vacant), or into leaving town and going back home to El Cajon or Chula Vista. It builds no new housing, and takes up money that could be used to build housing. Bad idea.

**Rapid Re-Housing (RRH):** This uses our present housing stock, NONE, to give a coupon to the homeless that they can use for the first month's rent and a security deposit. At last count, there are at least 15,000 of these vouchers given out that still have not been used. There is no housing here to use your coupon at, although we count these people as "helped". Even then, since jobs pay less money than rent costs, how can this person or family move into a home and then find a job? This is a waste of money in California, but works very well elsewhere.

**Permanent Supportive Housing (PSH):** This builds institutional shelter beds, not housing, usually 2 persons per room, in a nursing home, mental hospital, behavioral hospital, prison camp, "Clean and Sober" facility, drug rehabilitation hospital, or a Hitler-type Concentration Camp. A society that once forced Native Americans onto "Indian Reservations" wants to force poor people into Concentration Camps, too. This is supposedly Emergency Housing, but don't get your arm stuck on the barbed wire. Yuck.

**Rental Assistance:** This is money for those who need to come up with rent and cannot. It helps folks avoid becoming homeless, but does not help those currently homeless. Good plan.

**Emergency Shelters:** These waste tax money, drawing it away from building new housing, but they are the **penalty that society must pay for creating so many homeless thru rapid redevelopment.** If planning were adequate, none of this would be needed. Instead, the City courted the developers of million-dollar condos, plus forced the developers of affordable housing out of town. Since they may never return, the City may have to go it alone, plus you are stuck with the bill for shelters. These places are avoided as worse than the sidewalk, so **be glad you just have to pay for one and not live in one!**

**Housing Navigation:** Fifty housing navigators find the one rental unit available that is not already rented to a wealthy or Middle-Class person. You pay for these 50 Housing Navigators, plus landlords don't rent to homeless people unless they are Slum-Lords, so these folks are Slum-Lord Finders, and looking for housing that does not exist. Voodoo Economics, bad plan, money taken away from building housing.

**Bridge Housing:** Potentially the answer, but this is now being used to replace the old Transitional Housing (TH) which had a near-zero success rate, resulting in its being de-funded by HUD. TH helped people transition into being drug-free, alcohol-free, **drugged zombies who were mental vegetables.** Most came out worse than they were before entering the program.

New Bridge Housing plans do exist, however, that could end homelessness, such as the Amikas.Org "Tiny Homes" program that has been such a big success in 50 or so other cities. Both Journalists and advocates took nationwide tours, leading to politicians doing the same. **San Diego avoids methods that work, because there is way more money to be made via failure. Success at terminating the homeless debacle kills the political Cash Cow of re-election contributions!**

**Social Services:** This includes healthcare, medicine, psychiatry, psychology, substance abuse counseling, and a myriad of other services. **No housing is involved in any of these,** plus it has been my experience that extremely incompetent services get provided in many cases. I am currently fighting to see a competent psychiatrist, for example, unsuccessfully 7 months so far. I was also sent, years ago, to an incompetent physician who prescribed Hydro-chlorothiazide to treat my High Blood Pressure, but while that saved money on medicine, it caused Type 2 Diabetes, which it usually does. As a result, my Immune System is compromised, plus I have difficulty walking. County saved over two dollars! If you really think that Social Services are the solution to homeless issues, then I think you're smoking too much pot, or maybe using too much cocaine, okay? Social Services are not housing, either.

SUMMARY

**FINAL ANALYSIS:** Most of what has been done on the homeless issue, and is still being done, reminds me of the fictional law firm of Fred Useless and Joe Worthless, "Useless and Worthless Attorneys at Law", licensed by the taverns of the bar association. Enough sarcastic comedy. This bill does nothing except waste money and beg big campaign contributions for politicians. The Editorialists of the San Diego Union-Tribune didn't like it, either, but listed entirely different valid complaints. My comment:

"This bullshit legislation (AB-3151) is awful, wasteful, not helpful to the homeless, and is typical of the insane garbage the Gentrifiers and Politicians pull in order to confuse the public into thinking that something valid is being done on the homeless issue. Hell is being intelligent in a society full of idiots. So much poop is hitting the fan so rapidly, that it may prompt a Special Edition of my newspaper. Use it to keep the poop from splattering on you. Newspapers are a multi-use tool. I shit into one every morning.

**Notice how this bill does not provide for showers, toilets, jobs, local transportation, nor housing:**

Lots of TV cameras and attention, but no help. It's a big brass band, taking attention away from all that is not being done. Business as usual for San Diego. If you tell the truth you lose your job, and most of us are only one paycheck away from living on the sidewalk. All homelessness is due to politics, its only cause."

A large amount of material was censored out.

#### SOLUTIONS

Block communities from using Eminent Domain to tear down all the inexpensive housing, requiring permission from the State Legislature to take housing out of service. Force cities and counties to cooperate with the for-profit developers of inexpensive housing. Earmark funds to be used for housing only, materials and labor only. Establish a moratorium on all other spending on this issue that is not materials nor construction labor. Provide bus passes for the poor. Provide jobs that pay enough money to afford rent. Limit housing costs via Rent Control. Support powerful Labor Unions, not helpless ones. Approve AB-932 projects with all haste. Cap the amount of money which can be spent per homeless person being housed. Rebel peacefully. Join ACLU. Register to vote, and vote.

Things NOT to do: Don't shoot up any schools, don't kill any politicians, don't vandalize, don't sell dope, and don't litter unless your city removed most of its trash receptacles, making same necessary.

### What to look for in legislation:

In what way does it increase the non-institutional (non-PSH) housing in San Diego?

In what way does the legislation bring in for-profit developers of low-cost housing?

In what way does it provide laundry, toilets and showers for ALL current homeless, every day, at multiple locations, especially downtown?

In what way does this legislation limit spending to the construction of housing only, and no other services?

In what way is public transportation provided for those of low income?

Does this provide jobs that pay enough money to pay San Diego rent prices, \$28 an hour and up?

How does this legislation decrease the cost of rent or increase wages?

How does this bill help to integrate the poor, rich, homeless, Blacks, Hispanics, gays, lesbians, veterans, and other groups into all neighborhoods?

## News Media News:

CityBeat had four interesting articles of note: Torrey Bailey's article on the Homeless Choir, "Close to home", Feb. 21, publicized a new documentary about one of the "Feel-Good" facets of homeless help. We don't usually cover that sort of thing because it encourages the propaganda-myth that "Zillions of good things are being done, and a gazillion dollars is being spent, so don't feel bad about not being involved. Your government has you covered." The article is good anyway, because it bares the truth about the homeless being hard-working and not drug addicts nor alcoholics.

Has anybody noticed that articles and movies about "everything is wonderful" come out just before critical elections? The other movie recently is "Tony, the Movie". All of these things sound like the influence of the Church of England, the Episcopal influence, which publishes a "feel-good" newspaper about homeless situations, and operates a huge retirement network called PACE. The Church of England has much housing alongside the trolley, south of Palm Avenue, and just took over one of the two Walgreen's drug stores on Second St. in El Cajon, converting it into a PACE office at Second and Broadway. There have been articles in the Reader about the Episcopal Church being anti-LGBT, or at least refusing to let same-sex parents send their children to their schools. That's being a bible-monger, isn't it?

Seth Combs, in an editorial March 7, "Whole lotta housing love", covers the changes being made in zoning laws and codes, with an optimistic tone. The Mayor and Council are following the State Legislature and Governor, sounding the alarm that elections are going to be a tough cookie, due to the effect of housing and homelessness. So, politicians are slowly waking up, but will anything actually be done? I once asked local editor Michael Smolens of the San Diego Union-Tribune if he was interested in my coverage of some of the local meetings, and he said that he'd only

be interested if something is done, instead of just talked about endlessly.

The new housing proposed would be for those who qualify for "Affordable Housing", which means that their income is only 80% of San Diego's median average \$35 an hour full-time, or only \$28 an hour. At 30% of income for rent, that means these units need to rent for about \$1680 a month, which happens to be the \$1700 a month going rate, minus \$20. This is still helpful because the Middle Class in San Diego has even less housing than the poor, and currently must use whatever housing is available, even way lower in price than that, such as RV parks and mobile home parks in the East County. The cheap housing they vacate would become available.

How many years into this Mayor and we are still just talking? All of these plans would go into effect long after the critical Primary Elections in June, so after those elections will all this be scrapped? That's how all this has gone the past 30 years on homelessness. Having been a homeless advocate 30 years, and 8+ years the Publisher of San Diego's only editorial homeless newspaper in history, I become the historian of record on that particular issue. The ironic twist is that I learned far more by being homeless than I ever learned earning my Ph.D. in Psychology.

Elsewhere in CityBeat, Spin Cycle's John R. Lamb wrote an article on the California Democratic Convention, Feb. 28 edition, "Please stand by". He called it "the Comic-Con of political geeks", and "a snarled knot of hopefuls". Good description for the current political laundry out there, and I (Permanent Press) agree with Spin Cycle's wash on the Democratic Nonsense Convention. I had the common sense to stay away from those lunatics.

And, in CityBeat, Aaryn Belfer's excellent story on the race for San Diego District Attorney, March 14, points out that Summer Stephan's competitor for the job, Genevieve Jones-Wright said "Stop prosecuting homeless people for simply existing". Genevieve-Wright needs your vote June 5. There are numerous takes on the internet which call our DA's Office an arm of the Mafia, and I would not believe that except years ago in Milwaukee, I was intentionally unjustly convicted of a crime. Milwaukee is 3 times as corrupt as San Diego, however, in my take.

A new San Diego DA might help our Police Dept. recruiting efforts by cleaning up some of the corruption. Police want to be "good" cops and heroes, not "bad" cops (pigs). It is very difficult to be a good cop if you have to work with a lot of bad ones.

The San Diego Reader's "News of the Weird" had an article about a Russian who claims a war long ago wiped out Mars, something I write about in this issue in Unauthorized History. For more on "News Media News" also see the first part of the next article, on the Meeting of the Society of Professional Journalists. See also article on Uncle Tom and Racism in Journalism, next page center. ♦♦♦♦♦

## Meetings:

The San Diego branch of the **Society of Professional Journalists**, [SPJsandiego.org](http://SPJsandiego.org), met Tuesday, Feb. 20, at the Shiley Suite of the downtown library, 9th floor, with 24 Journalists present, plus myself, whatever-you-call-me. There will be 4 workshops on being better at news jobs (reporting, not editing), free. One guest speaker was Howard Lipin, Staff Photojournalist with the SD Union-Tribune for 32 years. He is a lifetime stills photographer who now has to also shoot motion video. He spoke of the difficulties switching back and forth using a single camera. He said that using black & white film is more stunning for documentaries. He said that San Diego Journalists are friendly to each other, but not in Los Angeles, and when the LA folks do stories here, they cause huge problems. The U-T has a partnership with Fox-5 TV and must shoot their video when there is no Fox videographer present. He uses a Canon 5-D Mark 4 camera to shoot both stills and video.

Kinsee Morlan, the Engagement Editor for Voice of San Diego, spoke about audio podcasting on the web, saying that many folks get their news in their cars on the way to or from work, and an audio presentation had more empathy for voices, something hard to do in print. There is an advantage to sound-only that has your brain fill in the video. She spoke of TEMI, a new software made in San Diego, that transcribes audio into type with 90% accuracy, and there is also an editing tool called Audacity, which is free. Adobe Audition is also a tool for audio.

The third guest speaker, Kris Arciaga, a video journalist with KPBS, said that sometimes he had to turn the air conditioning on or off for different takes. He is an excellent editor (my opinion) who can blend two different shots to make them go together. He showed clips from "America's Wall" about immigrant hopefuls in the Sonoran Desert of Mexico. He said that the military recently shut down Combat-Cam soldiers. He uses a C-100 camera. ♦♦♦♦♦

The **Basic Dignity Coalition** of Think Dignity, formerly the Girls Think Tank, met per usual the first Thursday of March, March 1, 6-7 PM, at the Monicker Warehouse, 705 Sixteenth St., at G. In Full Disclosure, I was one of several people who founded this particular sub-group. I was the only homeless person of the 12 who attended, and there was one other member of the press. • There was a rally held protesting the rape of homeless women on the street, and it got good coverage on 10-News. • There was an advanced presentation of the new movie, "The Homeless Choir Speaks", and it will again be presented March 28 at the downtown library, 6:45 PM, free. • Think Dignity is partnering with ACLU in opposing laws which prohibit sleeping and living in cars, and there are several current lawsuits pending on this topic, one a Class Action suit and the other a Criminal Defense Challenge of Constitutionality. A similar ordinance has already been shot down as not valid. • There is a new Street Café, which will join other "MOD Squad" features, which include 12 locations of showers, and the Street Boutique which gives out tampons and underwear. • The San Diego Housing Commission renewed the East Village storage program operated by Think Dignity, even though another storage program is being set up at 20th and Commercial. The new facility will have a thousand storage bins, but is being vehemently protested by Sherman Heights residents. They are also upset with the homeless tents and the increase in the numbers of homeless. • A replacement worker for Water Man David Ross is being sought to hand out water to the homeless, because needs to retire. • There will be a Summer Survival Distribution in addition to the regular Winter distribution of food, backpacks, and other survival stuff such as flashlights. For shower schedules and other events and programs, visit [ThinkDignity.Org](http://ThinkDignity.Org). ♦♦♦♦♦

The **Governing Board of the RTFH, Regional Task Force on the Homeless**, cancelled its March meeting, the second month in a row with no meeting. This is, however, their off-season, the work of hustling HUD money beginning soon. ♦♦♦♦♦

## Announcements:

**Remaining March Highlights:**

**Cesar Chavez Day, Mar. 31, with San Diego Libraries closed Mar. 30 and 31 both.**

**Padres Baseball Opening Day against the Milwaukee Brewers, Mar. 29.**

**Screening of Homeless Choir movie, Mar. 28, 6:45 PM, Downtown Library. Free.**

**East Village Block Party, Mar. 30, 2-8 PM, and Mar. 31, Noon to 6:30 PM. Free.**

**Easter, Sunday April 1. This is Christian Passover, involving an extended family Seder meal in most cases. Easter represents rebirth, new crops, renewal, and resurrection from the dead. These are concepts and certainly don't fit with this:**

**Annual beginnings of huge resentment of the homeless, typically April 1 each year.**

♦♦♦♦♦

**Schedule of California Western School of Law Free Legal Clinics: [cwclp.org](http://cwclp.org)**

**Important to check website for cancellations and changes! Free lawyers can sometimes be provided on ANY legal issue, so contact the Community Law Project at 619-239-0391.**

**CITY HEIGHTS** – Hoover High School 4474 El Cajon Blvd., San Diego, CA 92115 Each Tuesday afternoon - 12:00 p.m. – 2:00 p.m. (Closed during school holidays) Closed on 3/27/18

**CITY HEIGHTS** – Rosa Parks Elementary School 4510 Landis Street, San Diego CA 92105 Each Friday morning - 8:30 a.m. – 11:00 a.m. (Closed during school holidays) Closed from 3/30/18 to 4/20/18

**DOWNTOWN** – First Lutheran Church 1420 Third Avenue, San Diego, CA 92101 Each Monday evening - 5:30 p.m. – 8:00 p.m. (Except Federal holidays)

**MID-CITY** Mobile Clinic First Thursday of the Month - 3:00 p.m. – 6:00 p.m. (Location and directions available online at [www.cwclp.org](http://www.cwclp.org))

**SOLANA BEACH** – Saint Leo's Mission 963 Genevieve Street, Solana Beach, CA 92075 One

## Other News:

**Methadone Warning:** Heroin contains two active ingredients, morphine and codeine. Methadone is being used to treat Opiate addiction, and that is good policy. When someone becomes severely addicted to heroin, codeine, morphine, or Oxycontin, (synthetic morphine) **they need it for life or their brain does not function right.** Methadone is a synthetic form of heroin, made in a laboratory instead of a poppy. Its molecule is a combo of synthetic morphine plus synthetic codeine (hydrocodone). It is administered at a dose level that is enough to affect good brain function, but not produce euphoria (“high”). Compare with Carbocaine, synthetic cocaine, which was never used to treat cocaine addiction. All of the synthetics take longer to act, and are milder on the onset, plus contain no plant material, making it easier to dose. Yes I really do have a Ph.D. in this stuff. I use no dope whatsoever, not even marijuana, and once had a pharmacy and narcotics license for Tijuana, which I never abused, either. **For more on addictions and how to cure them, see [NZ9F.com/Drugs](http://NZ9F.com/Drugs).** I cover most of the addictive drugs out there, including human DNA, the only drug you get high on by giving it to other people rather than ingesting it yourself. ♦♦♦♦♦

The new chief of **Civic San Diego – Downtown Partnership – Clean & Safe** lasted only a week or two, so I suspect that one or more of the quarter-million pending lawsuits against that city-owned organization may have caused great harm. They are the division that tore down more than 20 thousand low-rent housing units since the year 2000, resulting in so many homeless in San Diego. Will the rapid re-development and gentrification of real estate still yet bankrupt San Diego? That would solve the Pension Fund problem, but not for City employees.

## Racism

**Real Estate Racial Red-Lining** is happening in the downtown area, with help from MTS, and the real estate agents appear to be selling San Diego as a “White” city, which it is not. It wasn’t until a prison-overcrowding lawsuit suddenly doubled the number of Blacks in San Diego (or seemed to) that I realized that a large portion of San Diego’s Black community had been held in our jails and prisons. Now MTS bus route 11 has been Red-Lined at Park (12<sup>th</sup> Ave.), not allowing the Black and Hispanic folks on it to continue down Market St. The “new” segregated route is now called Route 12. This arrangement keeps Black transit-users out of the Gaslamp District, Horton Plaza, and the Ralph’s Grocery area near 1<sup>st</sup> and Market.

Another **Racist MTS move** is to no longer connect the Inner City (Black people) Orange trolley line with the Green Line, Rapid, Amtrak, and Coaster at America Plaza, across the street from Santa Fe Station. When the new courthouse trolley stop opens, that is as far as the Black and Hispanic people can go on their Orange Line, another “Red Line” to protect “White” territory.

The Alpine bus, Route 864, was also split, separating the El Cajon Hispanics and Arabs from the White folks in Alpine. The new way of doing things takes 20 to 40 minutes longer, especially on Sundays with no Route 864X. A better solution would be to run 864X seven days a week. Does the new worse service have anything to do with decreasing incomes for non-Whites at the Viejas Outlet Mall and Casino? Does it have anything to do with keeping Native Americans on the Reservation?

Now what needs to be done is a **Black protest in the vicinity of 1<sup>st</sup> and Market**, or nearby, on a Sunday afternoon, San Diego’s Real Estate Sales Day. This protest would object to real estate Red-Lining by the real estate agents and the MTS, which is illegal, of course, to begin with.

**See next article on Racism in San Diego.**  
**See also “Feedback 3”, next page.**

Lately the thrust has been to get new housing in “**Transit-Friendly Neighborhoods**”. Is that the new name for Blacks and Mexican-Americans? Transit-Friendly? I have known a lot of Transit-Friendly people, if that’s our new name for Persons of Color. I can’t live in that area, though, or I get called “White Boy” and threatened, sometimes even with weapons. San Diego has considerable anti-White Racism, too, more than any other city I have ever seen. Try to make peace with your “Transit-Friendly” neighbors, and remember that they have grenade launchers, just like you do. And, if you are a Racist of any color, go fuck yourself. Stupidity should not be tolerated. We need to get back to the “civilized” principles of the 1960’s. All else is not survivable as a species, culture, and planet. ♦♦♦♦♦

## Uncle Tom is Alive and Well A column on Racism in San Diego

I am noticing the return of Tokenism and Uncle Toms in San Diego politics. Tokenism refers to the era when rich corporations (and governments) had one or two Blacks, Mexican-Americans, Arabs, handicapped, veterans, etc., to act as “token” representatives of their race or culture and mitigate accusations of unfairness. Cut of the same cloth were the Uncle Toms, a phrase taken from Harriet Beecher Stowe’s classic novel “Uncle Tom’s Cabin”, set in the era of British Black Slavery in the U.S., telling of favoritism for a “chief slave”, Uncle Tom, who organized hard work and maintained an anti-escape intelligence force.

Having politicians who are Black, female, LGBT, etc., is a plus because you can talk to someone of your group who is in public office, even if they do not represent the district you live in. That is a plus. The negative part comes in when they are called upon to tolerate or ignore some discrimination, encouraging no negative action from their like-minority constituents. This can be a plus, too, however, as it may avert rioting, burning, and looting. I remember the race riots in Milwaukee, Wisconsin, shortly after President Nixon had Martin Luther King killed.

Currently, there are allegations of Sexism in some Organized Labor organizations, accusations of Ageism in the LGBT Community, and allegations of Racism against MTS transit and real estate interests.

**If you follow my lead, you can live on the sidewalk right next to me. So, of course, we don’t have Racism in San Diego, because none of us wants to get fired.**

Getting the disenfranchised to fight each other, instead of the wealthy who control society, is a very old tactic. We are all in this together. Hence, I am not LGBT, but have always fought for their rights, and I am neither a woman nor Black, but have always fought for their rights, too. I also fought for the rights of the San Diego homeless 20 years before ever becoming one myself. So, am I the Uncle Tom? I suppose so, in a way, but any perks I ever got had to deal with my being a Publisher and Editor, not a homeless person. I do periodically disclose all ways in which I get treated differently, both good and bad.

So, does the City Council have its Uncle Toms? Of course, but what is the alternative? Politics is something that just has to LOOK good, sort of like ministry. You did notice how most of the Blacks, gays, lesbians, homeless, poor Mexican-Americans, and even the Arabs and Filipinos were all gerrymandered into specific districts, right? That dilutes their ability to change local politics, and is related to Racial Red-Lining.

The Press plays a similar game, where we cover up anti-LGBT or anti-Black Racism, the public incorrectly thinking that if something happened, the News Media will inform them, because we’re all independent of each other. Nobody mentions the daily News Briefings that all the media attend, discussing what will be purported to be “true”, plus what 80-95% of news will be censored out. If some rich guy or politician rapes a ten-year-old, that’s not “News”, it’s “Privileged Information”. Even I have to shut up about a lot of stuff, as I am not here to destroy things. I do, however, seem to be the only “Journalist”, if you call me that, with the balls to report on the truth in reporting and editing. **If you follow my lead, you can live on the sidewalk right next to me. So, of course, we don’t have Racism in San Diego, because none of us wants to get fired.**

See Also “Feedback 3”, Next Page.

## Unauthorized History: Theology, Censored Out Repeatedly

This article was censored out over 30 times, but this version is very compressed and does not compromise any secrets. Here, I answer questions like: “Who made me?”, “Where did this planet come from?”, and even “What is my purpose?” It is the truth, as close as I can come without being arrested for disclosing government secrets, and must be presented as a Theology, or perspective on the relationship of God or gods with us humans. It is a serious crime to possess this material in many nations.

Once upon a time, nearly an eternity ago, (ten to the power of ten, in eons, with enough zeroes to reach the moon) one of the semi-intelligent races with

technology, like our own, actually managed to become an Intelligent Life Form (ILF). They got rid of war, crime, poverty, hatred, rape, Racism, Sexism, Ageism, Classism, greed, malice, theft, prisons, and other things that make us only semi-intelligent. This led directly to them using this intelligence to conquer overpopulation, the aging process, all diseases, space travel, space colonization, and far more. These beings live forever, except may die in an accident or explosion. Many today are trillions of trillions centuries old. Our universe is only 14 billion years old, but there are 350 billion universes, approximately, and their number can be calculated via thirteen dimensional calculus. This universe is very young, and we were placed here to keep us from coming into contact with intelligent and semi-intelligent life forms. We are the first solar system to have semi-intelligent life in this universe, but the second planet. The first planet was Mars (also called Atlantis or SOL-5).

**The Anunnaki, who are those of this intelligent species that created us, want to know everything that can possibly be known.** This enables them to control the process of evolving planets and civilizations. To this effect, they dragged ice planets of pure ice to this solar system, crashing them down on Earth and Mars to form oceans. They then seeded the oceans with algae to produce oxygen. They create livable planets to the benefit of those inhabitants they created. Anunnaki are telepathic and so can communicate with Martians, humans, antelopes, dogs, alligators, etc. They designed their own bodies to grow new organs to replace ailing ones, such as growing a new heart. They each have the memory capacity to store about one-fifth of the Library of Congress, with the ability to recall any of it instantly. They can do calculus faster than a computer, right in their heads.

Their study of earth has to do with its uniqueness as a planet with mammals as the dominant life form. Earth is the land of milk (mammals) and honey (bees). Once referred to as the Ice Planet, back when Mars had a semi-intelligent civilization, Martians had colonies underground on Earth. (They still do.) Earth today is unique in having dairy products, cherries, berries, and grapes, as well as honey.

Martians are the three foot tall little green men called grays, pixies, fairies, leprechauns, and a dozen other names. Civilization on Mars was destroyed by an anti-gravity bomb, causing everything on the planet, including the oceans and atmosphere (air) to fly off of it into space at the extreme velocity of one time zone per hour. On earth, that is about a thousand miles an hour, which is enough energy to rip mountain chains loose. In two seconds, everything was so far into space as to never come back down. The debris of Mars formed the Asteroid Belt between Mars and Jupiter. A few places were saved from destruction, such as the cannons at the south pole of Mars. At the poles there is no centrifugal force to make things rush into space, just a spin, around and around. The cannons were to destroy asteroids, not to defend invasions. They can be used for that, however, and they still work.

At one point a huge ice-ball of Martian ocean fell to earth creating a crater we call the Gulf of Mexico. This wiped out the dinosaurs and vegetarian life because it caused volcanic eruptions which blocked out the sun for over twenty years. Most plants went (permanently) extinct. Humans are able to eat meat, and even each other if necessary, so we survived.

In constructing humans, and to record as much as possible about earth and life here, the Anunnaki crossed themselves with the least violent of the great apes, the pygmy chimpanzee, or bonobo. The pineal gland of humans, used in telepathy, was shut down, our memory recall much compromised, our hands and feet completely re-designed, the ape thumb being brought up near the fingers to act as an opposable digit, vocal cords were installed from some (not all) of the vocal DNA of a gray whale, and hair was suppressed causing a furless mammal, a human. The enormous memory capacity of an Anunnaki was kept, but the abilities to recall it became intentionally primitive. We are huge memory storage units, like the Google Cray super-computer, but our Microprocessor is primitive, like perhaps the ancient Pentium One. We are recording machines for knowledge.

Humans faithfully record every tiny detail of our lives, and all that we have learned, even though we are unable to recall most of it. When we die, the RNA in our brain memory cells stays intact after death, making us a thumb drive with no computer. That is why we bury dead, and embalm them, keeping memories alive in those dead brains for something like 300 years. Those humans with a lot of knowledge, such as inventors or college professors, are usually “Ascended”, where their memories are inserted into an Anunnaki immediately upon their death. The process of Genetic Memory is three levels above Top Secret, but I did research on the human side of that for my Ph.D. So much for some of my articles on “Why Me?” and things like that. I am an expert on human, not Anunnaki, Genetic Memory. Genetic Memory, the other “GM”, is also known as

instinct, talent, memes, abilities, or “past lives”. Most of it comes from our parents, and it is all knowledge from ancestors that we humans are born with. It forms about 98% of our DNA, the other 2% being the blueprint to build our bodies.

Popes, kings, and other leaders have known all of this for centuries, just like they knew about the Native Americans and the Americas long before sending Christopher Columbus. Space is the same thing, but far more complicated, with trillions of semi-intelligent life forms like our own, and thousands of intelligent life forms, too. George Takei, the actor who played “Mr. Sulu” on the original 1964 television show “Star Trek”, had a Facebook page for years which contained thousands of photos from other planets and civilizations. This is no longer permitted, however.

I can read some of my Genetic Memory, and get some if it from an ancestor who was a British Nobleman. He had a fun life in the London brothels. A more interesting life I remember was that of a Hermit of a country estate, caring for a huge wild forest surrounding a very wealthy home. He had three wives, made his own bread, wine, and beer, and provided fresh game, such as deer or feral pigs, when called upon by the rich family to do so. He also kept out poachers. So much for why I like camping, baking bread, brewing beer, and living outdoors in forests, and why my Milwaukee Alarm Co. – Home Police kept “poachers” out of homes. I have written books and provided classroom instruction on all of these. I also wrote a book on prostitution, no doubt due to the Nobleman knowledge. I once wrote that the Hong Kong Club in Tijuana resembled a British whorehouse from the time of William Shakespeare. Okay, how could I know that? Turns out that the city of Hong Kong was British, and its brothels intended for British sailors, so, of course, the pattern was the London bawdy-houses.

Lots more to be said, including about Jesus and such, but that is still censored out. This is just a tiny bit, a sampling of what you usually don't get to read.

One problem I have had in looking into my Genetic Memory is that some of it is obviously Anunnaki. How does that happen, and why? The ET guys told me that I should look inside my own head whenever I need answers, and answers have always been in there. See next article.

## Feedback 1: UFO Stuff.

The Unauthorized Theology article was only circulated to a few people, and they unanimously decided that I need to go into both **knowledge acquisition by Eucharistics and also Jesus and the bible**. Okay, but these were both censored out. Some of this is Cosmos3, 3 levels above Top Secret, but it has been 39 years since I worked with any of that, plus I am presenting this as merely an opinion.

The human DNA (blood and semen) in kosher food and Holy Communion not only programs your body to put out love on the specific radio frequency of the donors, but also contains knowledge. This DNA goes into certain cells of your body, becoming Mitochondrial DNA, which means DNA outside of the cell nucleus. When you have a child, the gene sorting process when an ovum and sperm combine causes this Mitochondrial DNA to take up a position in the cell nucleus. The new baby has this parent-swallowed DNA in a holding position within its DNA, but does not contain this knowledge in its brain.

When the child has children, however, the DNA swallowed by grandma or grandpa is present in the brain of the grandchild as knowledge that it is born with. This method of acquisition of knowledge is present in all mammals and is one of the things that makes humans such a study. Mammals as a semi-intelligent life form are rare. It is also pre-Anunnaki, which can eat memory DNA or RNA and have that knowledge in them in a matter of hours. Yes, it means they have a pill to learn French or Abstract Painting. We humans supply much of this knowledge, but they don't eat our brains, they re-create DNA and RNA using drug manufacturing machines. We have similar DNA cloning machines which can be used to duplicate human memory RNA. Humans and Anunnaki use exactly the same data Operating System, so our memory files are 100% compatible. We were designed that way.

On the **Jesus and bible** issue, Jesus of Nazareth (the real man, not Jesus “Christ”) was hanged by the Romans for preaching Buddhism, which is contrary to both Jewish and Roman Pagan beliefs. After his death he was “Ascended”, which means his memory was saved in the brain of an Anunnaki, which the scriptures call a “Glorified Body”. His followers moved to Rome, and lived in the catacombs, a system of storm sewers to prevent flooding during heavy rains. They even hand-printed “underground” newspapers, but not that many people knew how to read.

Roman police and military frequently rounded them up to die, and sold tickets to watch them being eaten by lions in the Coliseum. Bets were wagered on who

could survive the longest. Eventually the Buddhist Atheists who were followers of Jesus of Nazareth (the real Jesus, not Jesus Christ) burned Rome, twice, making it uninhabitable. This made everyone homeless, including Emperor Constantine. He hired Roman Pagan Priests to write the Gospels and New Testament, proclaiming Jesus to be the Last Emperor of Rome, the Christ. Jesus had died 300 years earlier. This fictional character Jesus Christ could turn water into wine, heal the sick, walk on water, and raise the dead, all of those characteristics the Jews were looking for in a Messiah. They also had Jesus Christ being born on Christmas, the Day of the Emperor, although the real Jesus was born March 21, 4 BC, which is 2022 years ago today. Christianity means “The religion of the Roman Pagan Emperor”. The Roman Pagan bible is still the basic book of Christianity, even 1,685 years later (2018-333 AD). The Second Coming of Jesus would involve a large group of Anunnaki aliens harvesting the knowledge in the brains of dead people in graves. The dead shall rise? In a way.

## Feedback 2, More UFO Stuff:

**I am asked how I acquired this knowledge.** Some of it I was born with, some comes from the secret books of the Jews, Roman Pagans, Mormons, and Buddhists, and a little bit comes from conversations with the ET community. Some of this comes from my secret work at Milwaukee Free University, Genetic Memory being an adjunct of Applied Psychology, the study of the behavior of normal people. That was just about a road map for the ET folks to find me, because that is what they are into, the chemical acquisition of knowledge. So, Evolution or Creation? Both. And, the only thing entirely wrong about religious doctrine is that there's no such thing as a “spirit”.

## Feedback 3, Racism:

I was asked why I am getting involved on the issue of Racism in San Diego. Racism is the same thing as the homeless problem, a bunch of rich White folks wanting to get richer by the disenfranchisement of others. The object, too, is to make us fight one another, instead of fighting the rich guys. San Diego is not a White-Supremist city, just a handful of rich jerks trying to make it one. The Racist said: “Since you seem to be a nig... I mean Black person, you can use your Housing Voucher anywhere in Arizona, Nevada, or Tijuana.”

Also along the lines of Racism I was asked if we need an “Underground Railroad” to help Mexicans get out of slavery in Mexico. The GAO (Government Accounting Office) determined over 20 years ago that if there was no border, everyone in the US would make less than \$3 an hour, with no Minimum Wage. They also determined that this would crash real estate.

I was also asked when the “Upcoming Riots”, whatever that means, should be. Not my department. I plan avoidance of destructive things, not planning same. I try to prevent riots using editorials to change governments. So, who listens to me? I am right something like 90% of the time, and when I get things wrong it is usually because a shill or undercover cop intentionally gave me wrong information.

So, implied, what is the Plan? Block the Incumbents (or Incompetents) in June at the ballot box, help the Democrats win back all of Congress, and they may impeach Trump, although they cannot impeach all of the damage he did so far. Can Racism and Anti-Semitism be Impeached? Can a Supreme Court Justice be Impeached? Does “Making America Great Again” involve chaining up Blacks in Africa to use them as slaves in the U.S.? A Great Nation is going down really fast. My Chinese readers are getting a great history lesson.

## Censored Out Due to Content or Space:

The Philosophy of Homelessness; Boom Times and the Population Paradox; The History of Beer; Unauthorized Theology, Uncensored; The Mystery Shopper Internet Phishing Scam. The History of Beer was intended perhaps as a cover story for the San Diego Reader, and I taught that at Milwaukee Free University. CityBeat couldn't fit it in, except in 6 or 8 installments. The Reader has paid me well, whatever name I write under.

## Snide Comments:

The tabloid Natural Perspiner (National Enquirer) claims that President Trump is “surrounded by traitors”. Methinks the Perspiner needs to use more deodorant because that really stinks. Garbage Truck Weekly makes more sense as a magazine, and its trucks haul away the Enquirer after nobody buys it. It should be free, because a good morning shit requires a good newspaper when you don't have a toilet. • When you vote, remember that “inc” is an abbreviation for Incorporated, Incumbent, or Incompetent, sometimes all three. • How is it that the Music Editions of the San Diego Reader and San Diego CityBeat both came out about the same day? I can't afford music, so I don't suffer missing it. I still listen to the Monkees, Yardbirds, and Dave Clark 5. How about Herman's Hermits? I'm not OLD, I'm AGED, like a fine wine or cheese. Or beer? Sure. Beer should be aged 3 months or more to lager, and I got training as a Brewmaster. • I call the San Diego Housing Commission “SLAP”, the Slum-Lord Assistance Program. • Is “Pho” some kinda sewer-fish, like carp or tilapia? • If Spaghetti Westerns were made in Israel, would they be Pastrami Westerns? Hold the cheese, please. • Turnstiles are the Fat Lady Trap. If you're too wide, you get stuck. • So what if your kid made “Best in Tennis” at school. My kid was “Dope Dealer of the Month”, three months in a row! • Computer repair book: Granny Smith's “Fixing Rotten Apples”. • In college, we sometimes ate frozen pizza for breakfast, still frozen. It's an Italian popsicle. Once classes were open for the day, Sports Service had the 7 AM special, a giant kosher “Schlum-Dog” on a hoagie bun, served with a 24-ounce Heineken, all for a dollar. Yes, beer was permitted in class. • Is there really a charity called “Cuck Fancer?” That's Nuckin' Futz. Cuck

Fockroaches, too. • Some places have free water that falls right out of the sky, watering your lawn and garden, and you don't even have to pay for it on your water bill. • I work for Ben Dayhose. (Say that to someone who knows Spanish, but don't say it too loud.) • Welcome to Tijuana, home of Sammy's Street Guns. The Los Angeles Eighteens actually ran out of dope in Tijuana because of recent arrests by the DEA. • Prostitution is nature's way of saying that you can get sex anyway, no matter how much of a fucking asshole you are. • Warning: Contains chemicals known to the State of California to cause unexpected Wet Farts and/or Terminal Flatulence. • Sliced bull penis on your pizza is Peckeroni. • Our tacos are so authentic they even have roaches crawling around on them, just like genuine street

tacos. • Canadians have a verb called "to hose", which means telling a lie, like it gives you a long Pinocchio nose, sort of like an elephant. So, is it the Housing Commission or Hosing Commission? •

**DONATIONS** were not accepted for many years because it caused too many problems of all different sorts. Now, you can donate if you want, using PayPal.Com, account [nz9f@hotmail.com](mailto:nz9f@hotmail.com).

Money will be used to feed poor people, buy office supplies, provide antibiotics, house battered women and drug addicts that need help, and do some basic political activism.

Published by San Diego County's 11% (330,000) Homeless Rotation, 15,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless\* \*(Official HUD Statistic for what **THEY** call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.") San Diego: At Least Triple the Homeless by Percent of Anywhere Else in the World

Twitter: @NZ9F (all caps) • Facebook: [John.Kitchin1](https://www.facebook.com/John.Kitchin1) or [San Diego Homeless News](https://www.facebook.com/San-Diego-Homeless-News) • YouTube: [NZ9F](https://www.youtube.com/NZ9F) (all caps)

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does

not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

Knights templar, see The pharaoh show, the swiss nazi templars, url: [octogon.falconsafe.com](http://octogon.falconsafe.com)

**PHARISTOCRACY • SWISS NAZI TEMPLARS**

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vincens, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.

San Diego Homeless News, 03-21-2018, Page 5, END.
