CORRECTING THE CLASS WARFARE LIES WHICH PERPETUATE HOMELESSNESS

Photo: President Trump's trade war with China will raise prices in the U.S., without benefit to any U.S. businesses, and will not hurt China at all.

“San Diego deserves all of its homeless problems because it continually makes those problems worse. You just can't fix Stupid.” (Re-wording what a Federal Judge said about ten years ago.) In This Issue: News Media News, including my answer to Gary Warth and the San Diego Union-Tribune. Other News, Feedback, Meetings, Culture (Religion).

When practical to post an advanced preview, view this newspaper becoming assembled at NZ9F.com/SDHNpreview. • There is also a Media List if a “Proposed” Edition is issued, and you can get onto that e-mail list and comment before or after publication at nz9f@hotmail.com, or on Facebook at facebook.com/San-Diego-Homeless-News-1477984309115791/ FACEBOOK PAGE IS NOT CURRENTLY OPERATING CORRECTLY. EDITORIAL

Regional Task Force on the Homeless Seeking New Homeless Representatives

Per the Meetings section, the San Diego Regional Task Force on the Homeless Governing Board is looking for persons who are homeless to represent our homeless here. When the NAEH (National Alliance to End Homelessness) met here, it was discovered that **only** San Diego has little or no homeless representation, and so there is currently an effort to remedy that. Good idea.

I spent over a year attending every meeting of the RTFH Governing Board and learned a great deal about the problem, circa 2017. A number of things greatly bothered me, and I wrote about those things, but to no avail. For one thing, the Point-In-Time Count is purely political, designed to be as inaccurate as the local government may call for. I suggested ways to conduct a more accurate count, but that is not what San Diego wants. It wants a less accurate count. That is easy, since homeless are trying to hide from everyone, to avoid being harassed. The euphemism for harassment is “Outreach”.

At the RTFH meetings I had a following among spectators when I spoke, but I was there to learn more about how San Diego handles homelessness. I learned. Evaluation companies were often brought in, paid to tell the RTFH which areas were being handled well, and which ones need improvement. They came in two classes: Those paid to lie, versus those which genuinely told the truth. Of the second class, real evaluations, a few stuck in my mind.

One internet and data evaluation company said that San Diego had way too many humans involved in Housing Navigation and Case Management and way too few computers. They said that in most cities it only takes two clicks of a mouse to get all relevant data instantly, including every possible placement in housing for any client or group of clients living together. They said San Diego is massively disorganized. None of them could believe how complicated our city and county make the process.

In the developed world, banks of computer servers know absolutely everything including full lists of Craig's List, local newspaper classifieds, all government housing, everything, instantly available and kept up to date every 30 seconds, 24/7. They also know every detail about every homeless and quasi-homeless person seeking housing, although there are safeguards protecting the identity of the

person. I might be AJC-1896, for example. The computers do the work. All parameters must be entered, from veteran status to pets, but that can either be done by the client, or entered with the help of a docent. Why doesn't San Diego use this system? That would make it easy to prove that no housing whatsoever is available, not even abusive shelters. It is humans working together to obscure the truth.

You can waive your Human Rights and sign up for our “New Auschwitz” concentration camp, a stalag (Prisoner of War Camp) for prisoners of Class Warfare. If you do the math, we need a Minimum Wage in San Diego County of at least \$30 an hour at present housing rental prices. Or, at our present City Minimum Wage of \$12 an hour, we need lots of housing that rents for \$140 a week or \$560 a month. We don't have that. The City has already torn down essentially all housing that rents for less than \$1800 a month, which is \$450 a week. That is approximately all the money you earn, at Minimum Wage. Double-up? Nope, that amount is for one person.

If rents were reduced to half, plus Minimum Wage doubled, the result works mathematically.

On to the selection of homeless representatives to the RTFH Governing Board: Being San Diego, there is usually an effort to recruit stupid people to become puppets. I give the story of homeless fired from the County Grand Jury on Homelessness for knowing too much (News Media News, this edition). If you want to represent the homeless, I ask this of you:

First, you should have at least a 4-year college degree, and preferably an advanced degree such as a Master's or Doctorate. Plenty of San Diego homeless with advanced degrees.

Secondly, you should know all about Human Spirituality, the addition of human blood and/or semen to foods consumed by the public, in order to socialize (brainwash and hypnotize) them. Otherwise, you are just going to be a hypnotized puppet. Ideally, you should be anti-religious, but that is not necessary.

Third, you need to know about all the secret groups that run all of society, from the Eagles Club to the Kiwanis, and from the Rotary Club to the Illuminati and Knights Templar. These are the groups which rule everyone, per the above paragraph.

Fourth, it would be helpful if you also know the top half of the Religious Secrets, about how the ET aliens fit into all this. In any case, as long as you are not stupid enough to believe in God, heaven, hell, Satan, scripture, bible, and all that brainwashing stuff, you would probably do okay.

Rich or poor? Liberal or Conservative? Who cares? I cannot volunteer for two reasons, one of which is that I already spent over a year of my time on that group as a member of the Underground Press, finding a mix of incompetence and political cronyism, with a liberal sprinkling of nepotism. The other reason I could not serve is that I don't have the money to get to meetings, nor buy those ancillary things which may be necessary, such as lunch on the way, or even postage. A non-stated third reason is that it is not likely I could cause change, so why waste time? ...

NEWS MEDIA NEWS:

This section deals with both poverty and the news media at the same time. It often airs concerns which are taboo in the conventional media.

Stellar article by **David Garrick**, front page, Union-Tribune, May 15, “**Council reinstates ban on living in vehicles**”, naming City Council members Georgette Gomez, Monica Montgomery, and Chris Ward as being those voting against the hastily-created new ordinance. **Our take on all this is that a well-thought-out vehicular sleeping ordinance could greatly decrease the impact that the homeless have on homeowners.** Supposedly there are shelter beds available for the homeless overnight, but there are none except those required to be maintained vacant at all times, per city contract. And, supposedly there are “Safe Parking” spaces for 500 cars, although the city recently admitted that there are only spaces for 200 cars. And, of course, the city only admits there are an additional 1,000 homeless that do not fit into the legal parking spaces, although there are 5,000. The city does not even admit that we have 5,000 unsheltered homeless, instead relying on the FAKE official count, showing San Diego's 40,000 homeless as only 8,000. The city admits either 87 or 75 homeless living in RV's, even though there are about 2,000, and the city is working on providing 200 RV parking spaces. Why 200 if we only have 87 or 75 homeless living in RV's?

In addition, the new law obviously contradicts a **Federal Court Order** that San Diego make available all of its city-owned property 9 PM to 6 AM, 7 days a week, forever, for its homeless to sleep on without being ticketed, harassed, nor outreached. This Court Order was issued because San Diego was proven, via 3 years of investigation, to be 100% at-fault for its homeless problem, caused ENTIRELY by city Redevelopment tearing down all low-rent housing units. I would provide a link, but the paperwork is something like 4 feet thick when printed out. You are not going to read that.

The two STINKIEST articles in this time period are the one about the FAKE homeless count (next article) and the one about San Diego Tourism (which follows it). We all laughed, but neither is funny:

San Diego Homeless are now 6% better at hiding: (Fake) “Count shows drop in homeless”, Gary Warth, San Diego Union-Tribune, April 30, Page B-1. Okay, how does an increase of 2,000 homeless become a drop in homeless percent, 2 years straight? If you are paying attention, we are now up to between 39,000 and 40,000 homeless in San Diego, and we have written articles proving that number regularly. What is really going on is that our Official Count is now only counting 20% of our homeless instead of the usual 25% counted in previous years. The diaspora of homeless out of downtown has contributed to this, an accidental effect of the city and county using the Hepatitis A virus to try to partially wipe us out. Supposedly, there are “new count procedures” resulting in a “more accurate count”.

Biggest FAKE NEWS in a long time.

Stories like this are why San Diego remains "America's Homeless City". In the official count, San Diego's 2,000 people living in RVs become just 74 people. We already had San Diego's 4-5,000 living in cars become just 1,000. I expect that eventually those who conduct our annual "Point-In-Time Count" will first be blindfolded, resulting in a lot fewer homeless found. It's the same tactics used in Utah to falsify a huge reduction in chronic homeless there, namely that if you are not counted, then you don't exist. Keep in mind that homeless are trying to HIDE from everyone. I proposed a valid count procedure, which would use Experimental Psychology.

17,500 asked for help because of being homeless in 2017, the latest data available, yet the official count was only 9,000. **Why is the San Diego County School Board homeless count currently 26,000?** Fake News does nothing to help the homeless problem, only help it continue on forever. According to Voice of San Diego, many of our homeless went into hiding because of so many being arrested. ...

Marilyn Hannes and Joe Terzi write "The outlook is sunny for **San Diego tourism**", opinion, page B-7, San Diego Union-Tribune May 3. YES! And fried chicken falls right out of the sky onto our clean and sterile solid-gold streets. Sunny with a chance of melting your wallet because prices are higher than anyone can afford. Sleepless in Seattle, but bankrupt in San Diego. OZ is for paupers, San Diego is for billionaires trying to faint at our prices here. Enjoy a \$12 hot dog. Stay out of the ocean, though, because we put all our pee and poop into toilets and flush them directly into the ocean, adding a little bit of iron. Mostly, our sewage just gets the "Sign of the Cross" blessing, becoming Holy Shit. Use a mouth plug when you swim, to keep the turds out. Swimming in ocean piss is why California is the Golden (Shower) State. ...

Charles T. Clark writes "County adds \$25M to Housing Trust", page B-1, San Diego U-T, May 1. This will build a thousand "Affordable Housing" units that rent for just \$450 a WEEK, making them perfect for business executives, accountants, physicians, attorneys and other professionals who must now live in slum-housing because San Diego has no housing for its Middle Class. Good idea, because the wealthy professionals who move into this so-called "Affordable Housing" will move out of their current slum apartments, making same available to poor folks. However, since San Diego sees an additional one thousand homeless per year, this becomes only a one-year solution. ...

John Wilkens tells the story of **Racism in San Diego**, "County's history has deep ties to Racism", San Diego Union-Tribune May 4, front page. https://enewspaper.sandiegouniontribune.com/infinity/article_share.aspx?guid=127e76cb-c149-4c1c-a97b-915b5dba6e2a ...

Guest Editorial, San Diego Union-Tribune, Bloomberg Opinion, **Prof. Tyler Cowen**, Mason University, P. B-5, May 6. "Take **UFOs** Seriously". Yes, but the object is to get them to land and talk. That leads to knowing the truth, rather than just believing the bullshit we have all been taught. There is a treatise or two on the complete truth about the alien civilizations, but it is mostly not ready to be published. Many secrets must be redacted. ...

Thom Senzee wrote an excellent article in the San Diego Reader, City Lights, May 9, page 2, "Less parking hurts homeless", about the new ordinance permitting **fewer parking spaces being required when building new housing**. He even alludes to a possible future where we all live in housing supplied by our employers. Parking is a poor solution for housing, but better and less expensive than our current use of institutions and concentration camps. On the other hand, reducing the cost of constructing housing may cause more of it to be built. He gives the number of homeless in the US as half a million, but there is more like 2 million in California alone, and another 2 million in the other 49 states combined. Our government lies, sponsors organizations to help it lie, and spends billions of dollars on lying. American Dream or American Nightmare? ...

Adam Beam wrote "Newsome proposes spending \$1B to combat homelessness", San Diego Union-Tribune, May 10, front page. We agree with **Governor Newsom** as to how horrific the homeless situation is, but using conventional means of spending \$300,000 per homeless person housed would need \$10B just for San Diego alone, or for at least 33,000 of San Diego's 40,000 homeless (best true estimate available.) And, California's 2 million+ homeless that the state does not admit would cost \$600B to house at present ways of dealing with the problem. Clearly new and unconventional ways are called for! We predict that the billion dollars will have no impact at all on homelessness, except to maybe increase it as tens of thousands of greedy nonprofit organizations seek to make a fortune without solving any problem at all in the long run. ...

Time Magazine, Dec. 3, 2018, "3-D printing an end to homelessness", Eli Meixler, writing about ICON, a Texas startup using **Vulcan 3-D printers to make 350 square foot housing in 48 hours**, complete to move in. In the future, they want 2,000 square foot homes in less than 24 hours. Instant granny flats? <http://time.com/collection/best-inventions-2018/5454284/icon-vulcan-3-d-printer/> ...

EDITORIAL

Answer to "Covering homelessness is a passion for editor of underground paper"

I promised that I would eventually review the article Gary Warth wrote about me on the front page of the San Diego Union-Tribune, Wed. Jan 23, 2019.

sandiegouniontribune.com/news/homelessness/sd-me-john-kitchin-homeless-newsletter-20190123-story.html

I initially de-fused the situation, saying he was 90% accurate, but that was far from true. I am the only person who has tried to evaluate the accuracy of the San Diego news media the past ten years, and I also court Journalists, asking them to tell the truth. Shortly after the article was published, one of the homeless advocates asked me, "What are we going to do about Gary Warth? He misquotes everybody."

I got misquoted severely something like eleven times in the article, but I thought it read okay other than that. There was an obvious intent to discredit me, my 6-page resume becoming 18 pages, the California Underground Press Association becoming the San Diego Underground Press Association, and I even supposedly print a Chinese edition that I have never seen. Bad press is just fine, and actually expected for the chair of the San Diego Homeless Editorial Board. The previous chair, Melanie Stuart, had way more untrue negative information about her in the Union-Tribune, years ago. Stuart was actually fired from the County Grand Jury on Homelessness because she knew too much and asked the wrong (or right) questions. Warth needs to know that I have a lot of fans who work at the same newspaper he does. The article hurt his credibility.

He covers why I moved to San Diego something like 3 times in the article, but the initial reason was that I had a bunch of relatives in politics and suburban development here, even before I was born, and they requested I move here. Not easy, because I had businesses in Milwaukee requiring work every day, plus I was working on two college degrees. By the time I got to move to San Diego it was 1978, and my relatives were all retired. I first moved here 41 years ago. Then, it was America's Finest City, not the outhouse it is today. More people are moving out than moving in. San Diego has spent billions of dollars on Public Relations, trying to look like something that it is not. Our whole tourism program is to try to sucker people into buying real estate here.

At one point I told Warth and his photographer that more people read the San Diego Homeless News than read any one issue of the Union-Tribune. He misquoted me as saying "Way, way, way more people", which I did not say and is not true. His coverage of my biography is even more inaccurate.

He researches my police agency, which existed from 1970 thru 1978, when all of its assets got sold (customers, contracts, company name, alarm equipment) to a successor company, but he uses the internet to research that. The web did not exist during those years, and nothing makes it onto the web unless placed there.

As for covering my intentional unjust criminal conviction for fraud, at the hands of the Mormon Godfather and Mormon Mafia, I said that "Canadian Intelligence" investigated and found me to be not guilty. Warth called them the Canadian CIA, but of course there is no such thing. It was the Canadian Bar Association and the Canadian Secret Service which investigated, erasing my US criminal record. Cost me \$3,500 for the investigation, but of course nobody gave me back the \$40 million in losses which resulted from my intentional unjust conviction. I had applied to Canada to become a Political Refugee from the United States. Every day the Mormon Godfather had me arrested and locked in a toilet in the Milwaukee County Courthouse. I was never given clean clothes, rarely given food, and held as long as 20 days at a time. My arrests were timed to be at as inconvenient a time as possible, at family picnics, in front of neighbors, and 8 arrests that caused me to be fired from jobs. Would you have applied for Refugee status? I believe \$5 billion to be barely adequate damages.

While in prison, I had to watch my back because of being a former police chief. I filed writs to get gang members released, and also represented inmates who could not get an attorney. A lot of them were unjustly convicted, too. Some, intentionally. In the course of events, I was accidentally handed my own

criminal file, marked "Secret Bar File – Judges Only" and read it. **Under no circumstances should someone intentionally unjustly convicted of a crime be permitted to read the Secret Bar File on their own case. That indicts the entire Criminal Justice System.** I found out that three of my business competitors were on my jury, just for starters. And, the three expert witnesses have since apologized for perjury. They all said they had to lie for the DA or risk being convicted unjustly themselves. I wish I were making this up. I write more at NZ9F.com/Me. I only cover 0.01%, however.

The article gained me fans, but I was already the most politically-powerful homeless person in history. Now I become the only Underground News Editor in history to ever be featured on the front page of a big-city US daily newspaper. It is entirely appropriate, too, for America's Homeless City to have a homeless Senior Editor, myself. Anybody want to know how the drug cartels run San Diego real estate? I am not trying to destroy or radically alter society. Should I do that instead? I'm having a hard time dealing with knowing that money from drug sales goes to pay for television political ads. Any comments?

I'm not worried about immigrants, except those who run Los Angeles nonprofits coming here and making San Diego's "Bottoms Ghetto" as horrific as Los Angeles "Skid Row". We need to keep Los Angeles "help" agencies out of San Diego. But how? They told me to find Jesus, and I asked if he was lost.

Our story of homelessness is the story of the Mormon Mafia selling real estate and dope, and trying to take over all small businesses, even if they have to kill the owner or send them to prison for something they didn't do. Sorry to be so truthful. That is the finding of many years of investigative journalism. I never went to school for journalism, learning to investigate as a cop, instead.

Warth emphasized my newspaper and website, but there are other things I do that are important. I ran a food pantry in the City of El Cajon for 20 years, and one in Tijuana for 30 years. I fed a hot evening meal in Tijuana to as many as 200 people a night. They called me the Tijuana Rescue Mission, but this was rescuing people from their government, no religion involved. I helped find people housing, sometimes employment, and financed it all via my engineering business in Alpine. I provided clean blankets for those needing to sleep on the roof of my mission. They called me Padre Juan Cocina, which is Father John Kitchin in Spanish. I kept a diary of the mission, which can be read at NZ9F.com/R13. It is part of one of my autobiographies.

Both Gary Warth and his photographer discussed Human Spirituality (which means human blood and semen secretly added to food in order to control people), and agreed that the poor and homeless were being decimated by same. Part of my mission as a Bishop is to try to rescue these people, who are victims of religion. He uses the phrase "Conspiracy Theory", which indicates someone who is trying to keep people stupid. I got what I expected, and, after all, what can be expected from a newspaper that has Jan Goldsmith on its Advisory Board?

The article is the biggest Fake News in Union-Tribune history, on a par for Journalistic Sleaze with Doug Manchester's headline, "Big Sale at Jerome's Furniture this Weekend". I have more fans than Gary Warth and more fans than the Union-Tribune, but nothing about me is fantastic except that I dare to tell the truth. Not one thing in my resume is super-spectacular, just proof that more coincidences happened to me than to anyone else in history. That is noteworthy, but cannot be labeled good or bad. My fan base wants to know about the secret societies that control everything, about the religious secrets, and about the space aliens the bible calls "angels".

Correcting the lies which cause homelessness only appeals to a small fraction of my readers, but it has also made me a spokesperson for the San Diego homeless, and one of the few people who has made real political progress on the issue. I remain as invisible as possible because there has been a concerted effort for many years to discredit me as much as possible. I am flattered that I have made enough difference to warrant a front-page article making me look far more unusual than I actually am, but this is far from the first time that has happened. This is the first article involving one my 2 newspapers. I also publish a dozen Facebook pages, many articles not found in either of my newspapers, and college courses. I may be typical of San Diego's 15,000 never-counted homeless.

In defense of Gary Warth, he cannot exactly write that what I say is true, especially things regarding the secret societies that place their human blood and semen into the food supply to hypnotize everyone. News media do not cover the truth about societal control, just like Unabridged Dictionaries do not contain Gnostic words. For example, the Roman Catholic Mass, "*Missa hyper-Gnosis*", translates to Mass Hypnosis in English, or "Mass" for short.

Where do we go from here? Distribution of the paper edition of the San Diego Homeless News would be helpful. It would also be helpful for the City and County to understand that there are low-cost and no-cost partial solutions to homelessness. Whenever I write about them I get massively criticized, because there are a huge number of people out there that make money from the homeless issue being so bad and out of control. It isn't money but politics which continues to make the homeless problem worse every year. Throwing money at the homeless problem does nothing to help nor solve it. It just makes huge profits for corrupt nonprofit organizations and the billionaires that own them.

Written by John Kitchin with seven other contributors who wish to remain anonymous. My thanks to everyone involved.

Other News:

A new level of insanity: The Regional Task Force on the Homeless has become a "Good Old Boys" network, for greedy "Nonprofits-For-Profit" to **get rich quick on federal housing money without actually solving the problem nor making it any better.** The \$68 million (formerly \$78 million) in HUD funds that San Diego receives every year are not exactly wasted, just not used to build housing. Instead, people get vouchers to find their own housing. Housing that isn't there. Many have spent 20 years looking for housing that does not exist. ...

Mayor Faulconer is complying with state and federal laws which require him to identify city-owned buildings which may be used for **homeless housing projects.** We expect the process to take 20 to 30 years, and by that time our homeless are likely to be 80 thousand. I won't be around to see that, but the last 30 years on the San Diego homeless issue has proved very enlightening. And, I still fight to make the situation better for everyone, not just the homeless. ...

Stop the Trump Tax: President Trump's new China Import Tax will greatly increase prices for all the essential things Americans must buy from China, because our wages and incomes are so low. Shoes, bags, kitchen utensils, LED lightbulbs, shavers, body powder, perfumes, laundry soap, canned fish, toys, batteries, pens, auto parts, tools, snacks, and thousands of other items will go up in price. US production will not benefit because they need to charge far higher prices than China charges. **So, this is merely a tax on poor people, without any benefit to US interests.** Donald Trump, release your tax records so that people know you are the **worst manager of money in IRS history** (Source: PBS quoting the Washington Post). Ronald Reagan's "Voodoo Economics" on steroids. **You just can't fix stupid. MASIA, Make America Stupid and Insane Again.** ...

FEEDBACK:

I continuously keep getting asked the question why I am **the only one making sense** on the San Diego homeless issue. I guess **you need to be one** to understand it, plus **you need to know** exactly how the secret conspiracy groups operate to rape society.

I was asked to help folks understand why nothing successful is ever done, and I put it this way at a public meeting: **It is nearly impossible to tackle both the Godfather's Real Estate Cartel plus the News Media, both at the same time.** So, this newspaper attempts to correct the lies, instead of trying to sell you new and improved Snake Oil.

I stopped reporting on those meetings that had no possibility of benefiting anyone except the greedy people who make money on poverty and homelessness without doing anything beneficial. That is the norm, not the exception.

Meetings:

The San Diego City Council Committee on "Public Safety and Livable Neighborhoods" met April 17, and I got up at 5 AM to be there and speak. There was a huge protest on the first floor of City Hall, sponsored by Disability Rights California, who sued to get the former **Vehicle Habitation Parking Ordinance** thrown out by the legal system. There was one copy of the proposed new ordinance, and I read it but could neither support it nor reject it. So, I explained that the only other choice is Non-Agenda Public Comment, and gave my speaker slip to Committee Chair Monica Montgomery. She accepted it, but would not allow me to speak when it came time to. My comment was not for nor against, but rather **a complaint that no homeowners, businesspersons, nor homeless**

were contacted regarding the wording of the new ordinance. I was complaining about the lack of transparency involved in the issue. Since it became obvious that the Committee had already decided what it was going to do, I then left the meeting. I did publicity for this meeting, and it was extremely crowded. It almost needed the main City Council meeting area. I got the feeling personally that I was dealing with a bunch of rednecks, even some of whom were Black. Nope. The Committee came to the same conclusion that I did, that this ordinance needs a whole lot of work. So it was sent to the City Council with no recommendation that it be passed. David Garrick covered the meeting for the San Diego Union-Tribune.

From here, I want to see **FEEDBACK** from the PUBLIC as to what should be in this law. Why? **A good ordinance would greatly ease the severity of the homeless problem on the public.** Unlike the "history" section of the proposed ordinance, which said that we have parking for 500 homeless, the truth is that we have about 5,000 sleeping in cars and trucks, which is a larger number than the City even admits we have in total unsheltered homeless. Of our 40,000 homeless, best true data available, the City only has counted 1,000 unlawfully sleeping in cars, plus 500 legally sleeping in cars as part of the Dreams For Change program.

Okay, but nothing is going to work out if the City continues to hallucinate on this problem. My proposed ordinance had the homeless parking in Residential areas, because in Commercial areas they would interfere with both Tourism and Business. A lot of our businesses are having enough trouble staying solvent without more problems due to homeless being parked there. In any case, every San Diegan has a stake in crafting a well-thought-out Vehicle Habitation Ordinance. This is especially so since the **City of San Diego has a Federal Court Order that it make ALL city property available nightly for the homeless to sleep on.**

That's one of those things, (resulting from being the most tyrannical city on homelessness), that makes San Diego "America's Homeless City".

Contact your local politicians to demand that the City use parking to make the homeless issue less of a problem for homeowners.

District 8, Vivien Moreno, (619) 236-6688
District 9, Georgette Gomez, (619) 236-6699

This article was written before city hall completely BOTCHED the entire possibility. Call them anyway, and demand they fix what they messed up. A good ordinance on sleeping in vehicles could go a long way towards eliminating problems with businesses and homeowners.

.....

The Basic Dignity Coalition met Thursday, May 2, upstairs in the Moniker Warehouse, with 23 present. **The group has at least temporarily lost its first-floor meeting location,** and joined a choir group on the second floor, their meeting not yet being over. This could be a serious setback in a ten-year history now of dozens of other organizations trying to take over the Basic Dignity Coalition. I was one of the founders of this sub-group of Think Dignity, and have always written its meetings history.

Often, groups that deal with equality for women want to take over the group and make it for women only, with emphasis on the dignity of homeless women. I do not object to that, except they always go on to propose the exclusion of men. Some groups have come in to propose that we become a partner with The Rock Church, but of course this group was originally established for **those too intelligent to believe in God.** They suggested that preachers be paid to deliver sermons which would result (?) in homeless having more dignity for other homeless. Now, it seems, a choir group, a homeless feeding group, and other organizations using Los Angeles Skid Row tactics want to make our homeless situation "solutions" here as bad as they are there.

One of the latest incarnations is called "Voice of Dignity", an attempt to influence the secular atheist nature that has made the Basic Dignity Coalition such a success. • Once the choir group meeting was over, one of the homeless gave a view of living on the streets, for those who have never experienced that. It was true and honest. • There is now an Advocacy Training Group, which will train people how to speak

to city hall on behalf of those parked in vehicles. • **It was noted that many Medi-Cal and health insurance options now include health club gym memberships, which include showers.** Check with your health insurance plan. •

Think Dignity needs additional help volunteers for its shower program. ThinkDignity.Org. • June 29 may be the Survival Products distribution date, giving out sunscreen, insect repellent, soap, socks, sunglasses, towels, etc., early in the morning. • The next meeting will be June 6, 6-7 PM, **AT AN UNKNOWN LOCATION.** Use the link to find the time and place.

It has been very common in the past for this group to lose its place to meet whenever it becomes too successful for local politicians to accept.

San Diego has a long history of harassing successful groups which operate with dignity, attempting to replace them with draconian groups that merely waste money. It is not yet clear whether there is another attempt to take over this group and make it just another "Jesus" thing, brainwashing and hypnotizing the homeless, which is something our 15,000 intelligent homeless oppose. It does, however, happen all the time, of course. •

Oh, one other thing. **I was asked by the group to give a synopsis on the most recent PITC, Point-In-Time Count,** and what I said formed the second "News Media News" article in this newspaper. Fraudulent again, and even more of a fraud than last year (see page one of this edition). When I was completed giving my analysis, a man who claims he is the Homeless Representative on the Regional Task Force on the Homeless (RTFH) then contradicted everything I said, instead giving all the **Fake News which went out in the Union-Tribune.** He also said he is recruiting homeless to serve on the RTFH governing board. **At the most recent NAEH convention (National Alliance to End Homelessness), San Diego discovered that it was the only homeless board in the country that did not have dozens of homeless on its governing board.** This is likely to cost San Diego dearly when it comes to soliciting federal funds to combat homelessness. Sorry, but it is my job to give the inside picture. ...

◆◆◆◆ END OF MEETINGS SECTION ◆◆◆◆

The legalization of marijuana has had the impact that it is now very difficult to buy plastic bags of the variety used to distribute marijuana illegally. Sold out, most of the time. Obviously, legal pot is being re-sold by the ton, one bag at a time. ...

Religious Victimization:

(First installment of several proposed):

Note: This was written before the many violent attacks on religions. As bad as religion is, there is no need for violence.

Victims of society who are homeless are also religion victims, so the involvement of churches in help given them is ridiculous. Religion can effectively be considered a branch of government, like in Great Britain, and so can the news media and the bank system. Religion is a method of control aimed at the timid, weak, easy-to-persuade people who are hypnotized into having beliefs. It has advantages, such as establishing morals, mores, values, and similar ethics. From there, religion also establishes Social Class, a Caste System, a method of either enhancing or interfering with education, a platform for either love and sex or the lack of same, and enforcement of Social Class Warfare via the Secret Police and their many affiliated organizations of the religious and social Mafias. It was the churches, using their Mafia enforcement groups, which created the homeless problems throughout history, plus maintained since 1980 and President Reagan a Homeless Social Class in the United States.

The first really big homeless problem surfaced during the Herbert Hoover Great Depression of the 1930's, when Unemployment topped 70%. The Salvation Army, a Protestant Church, was tasked to deal with it, along with the Red Cross. Free food was provided, all of it containing drugs to control poor people, same as today. Religions made a massive amount of money on poverty, same as today. Both religions and nonprofits take advantage of their tax-exempt status to make money (tax money and donated money) on services provided. Senator Upton Sinclair (BP Sinclair Dinosaur Gasoline, ARCO) wrote a book on how religions victimize, called "Religious Profits". Sinclair also wrote a book called "The Jungle" which inspired USDA inspection of meat packing plants. Religious freedom does not allow the same level of inspection of churches and nonprofits, however.

Slavery, although outlawed, continues via the system of paying slave wages and society's Oppression and Repression of minorities, women, elderly, disabled, disenfranchised, those unjustly criminally convicted, non-heterosexual sex preferences, and a handful of other categories. Religions, enforced by their Mafias and Secret Police Societies, are at the top of all these forms of Oppression and Repression.

Children are victimized in grade school by being fed entirely too much human blood and semen in the food given them, much like I was. Many go on to be sodomized by the religious people running these schools, too, both having been the norm for Catholic schools, not the exception. It went unpunished because we developed a society in which if you cannot prove something, then it does not exist. We have Jews mutilating the private parts of baby boys who are not Jewish. We have Native American religions cutting out the clitoris of baby girls. We have parents encouraged to give up their children for adoption, even though only 1% actually get adopted. And, throughout, there is the pressure to crank out more and more babies. Overpopulation profits are the trademark of the pyramid scheme of the New World Order.

The primary perpetrator of the crimes against the homeless is the Catholic-Mormon-Baptist Mafia, which runs such services as shelters, part of the system of "Nonprofits For Profit". I not only object to tax money going to this (Satanic!) church group, but I also oppose private money being allowed to victimize people, too. For all the good our churches do, they do way more harm.

Sorry, but somebody had to write this, and that somebody had to be me. This is but an introduction to the problem. The whole area of Services has been hijacked into a scheme to make money as opposed to a system to help. And, the help given is to help society (not individuals) deal with a problem pandemic to it. We don't solve our homeless problem, just make lots of money on it. Reminds me of Big Pharma, which is not interested in a drug you take once to be cured forever. They want drugs you take every day, for life. Profits over people, the same as homeless help.

I resent the nonprofits coming into San Diego from Los Angeles, making our homeless area ("The Bottoms") as abominable as Skid Row. PATH prison for the homeless now has a San Diego branch, and we now even have a choir. This is very-old-school religious brainwashing treatment of the problem. Probably the worst and most-backwards of the bunch is the El Cajon Transitional Living Center, in the City of El Cajon. Their religious brainwashing is disguised as secular, but a short conversation with their victims reveals just how super-brainwashed and superstitious they are. This was part of (religious) "Transitional" housing where poor people become transitioned into being brainwashed apes with no more human intelligence. By far the most abusive, however, is to have religious programs administered by the District Attorney, with the person placed on Probation in order to ensure compliance with being thoroughly confused and brainwashed.

End of First Installment. Most Rev. John Kitchin, Atheist-Pagan Bishop of San Diego County (since 1989)

SNIDE COMMENTS:

San Diego's treatment of its homeless: Is this a Crime-Free Housing Program, or a Housing-Free Crime Program? People get transitioned into heroin and meth addicts by being homeless. Is that so federal DEA money can then be used to put them in PATH, making money for the Mormon church? • San Diego is now down to just 35 homeless, and all of them are right in front of your house. • Does the 35 homeless counted sleeping in RV's include the 350 sleeping at the Camp Pendleton Rest Area? • The new law prohibiting styrofoam food containers is probably in violation of the Trump Styro Act, requiring food containers to be manufactured by the President's brother-in-law, each one depicting a different species made extinct during the Trump Administration. • There is a tax on these containers, too, in order to fund Police Brutality and the fondling of women. • After years on the sidelines, San Diego has regained its coveted title as the Meth Capitol of the World. This required years of hard work and dedication on the part of dope dealers, street gangs, drug cartels, and the money launderers who operate banks and real estate development companies. Needing to stay awake and work 2 full-time jobs so that you earn enough money to pay rent is what makes San Diego "Meth City". • When making Buzz Juice (beer) at a micro-brewery, the Frog Stabber must stab each and every frog that goes into every batch. • Willie said, "I moved to San Diego because there's lots of dope, and people own tons of stuff I can steal out of their homes." • Today's word, **Schizotweetia**. The repeated sending of Schizophrenic tweets without even realizing how little sense they make, sort of like Donald Trump does. Died-in-the-wool Schizotweeties also go on television with lunatic signs behind them, held up by paid followers, that say, "Black slaves for Trump", "Raped women for Trump" and even "Axe murderers for Trump". Schizotweeties think they are President, and get to fire everybody like on "The Apprentice". One morning Trump fired his toaster and his coffee machine. He was late for his meeting at Boob-Fondlers Anonymous.

DONATIONS were not accepted for many years because it caused too many problems of all different sorts. Now, you can donate if you want, using PayPal.Com, account nz9f@hotmail.com.

Money will be used to feed poor people, buy office supplies, provide antibiotics, house battered women and drug addicts that need help, and do some basic political activism.

Published by San Diego County's 12% (360,000) Homeless Rotation, 17,000 to 40,000 (on any given day) Un-housed, and 2 Million+ Nearly-Homeless* *(Official HUD Statistic for what THEY call San Diego's "Cost Burdened". The State of California calls them "Financially Stressed.") San Diego: At Least Triple the Homeless by Percent of Anywhere Else in the World (unless you accept the official Propaganda bullshit)

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

Knights templar, see The pharaoh show, the swiss nazi templars, url: octogon.falconsafe.com

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.
