Photo: Viking Christmas Tree (topped with Pagan Star) can be traced to Ancient Egypt. Christmas ("Day of the gods" or "Day of the Pagan Emperor") goes back ten thousand years, and was even celebrated by the Jews when they were Pagan. The Christians named both their religion and Messiah after this ancient Pagan holiday.

San Diego at a Crossroads, or in the Cross-Hairs? Let's not blow this chance.

LOCAL POLITICS

What about Georgette Gomez? We are concerned that she could become the new "Uncle Tom" on the City Council, and even spread that role to her membership in SANDAG. Why? Her appointment as Chair of MTS did not result in the bus and trolley routing to be less-Racist and less-Classist. Before her time there were Racist-Classist 200-Series "Circulator" bus routes in La Jolla, that only go thru the Whitest neighborhoods. Bus stops were eliminated city-wide that were used by poor and elderly people to buy groceries at the dollar-stores. In San Ysidro, the 8 bus stop seats at the 99 Cents Only store were replaced with only 4 seats, so many handicapped and disabled (or elderly) must now stand with their walkers and crutches to wait for the bus. In El Cajon, at East Main Street and Pepper Drive the bus stop for the dollar store got shoved a half block farther away. By far the most Racist thing, however, was splitting Route 11 into White 11 and Black 11, the latter now called Route 12. This maintained the anti-Black and anti-Hispanic Real Estate Red-Line at Park (12th) and Market, not allowing both races to use the same bus. It would be somewhat acceptable for Route 11 to be split at Park Blvd. (12th) & Market St., where someone from a Black or Mexican neighborhood on the new Route 12 could just get off there and wait for the (White) Route 11 bus, but the new routes took out a mile in the middle of the route. So, a Black or Hispanic person now needs to take the Route 12 bus, and then walk one mile to the (White) Route 11 bus. All this is just the tip of the iceberg. I don't want to write a whole book on Racism and Classism in San Diego. The latest is a big fare increase for Seniors and Disabled, even though Los Angeles reduced its fare price in that group to free.

The latest is that Mayor Kevin Faulconer wants to improve transit, and as always we wonder if that means making his friends and families wealthy by spending tax money their way. And, we wonder if Georgette Gomez is going to somewhat "Republicanize" the City Hall agenda, keeping the real hot stuff from getting scheduled for debate and passage. Will she be the one Democratic vote necessary to block a veto override?

Going the other way, these things are just speculations made by a politically-savvy editor. Things are not always the way they appear. We all need to work with Gomez to see what can be done to better San Diego. The caution is because it is the "Republicanized Democrats" in San Diego that caused the homeless problem plus blocked all attempts at fixing it. I previously criticized Chris Ward as not being the person dedicated to eradicating the homeless problem, based upon his voting at one time to permit a lot of short-term real estate rentals. And, of course, I had a talk with one of his staff representatives who told me Ward is a Gentrifier, not a Homeless Advocate. Very shrewd politics, though, reminding me of Toni Atkins and Todd Gloria who shared the same tactics. Ward gets his funding from Mayor Faulconer's camp, so he is potentially another

possibility of buying off one Democrat to block a Mayoral Veto override.

When I heard that Todd Gloria favored shipping container homeless housing I was all cheers, but now I learned that these would be \$200,000 homes, and that makes them not affordable to build. The reason San Diego has so few homes for its poor and disabled is that it insists on spending about \$300,000 for each one person housed. Do the math on housing 35,000 people at \$300,000 each. (\$10.5 billion) That is one reason I was against PATH Mormon Connections Housing coming to San Diego in 2010. For what that project cost, the City and County could have instead bought each homeless person to be housed their own single-family home in San Diego.

Sorry to be the Conservative in the group, but our governments spend ten times too much money on the homeless situation, being careful never to get anything done.

Let's spend \$2,000 on a shack for each homeless person times 35,000 equals \$70 million. The reason so much money gets spent on nonsense is that the friends and families of politicians get rich on the overspending. The big money maker on homeless projects is usually the Catholic-Mormon-Baptist Church, a single entity. That's a really big religious secret, and if I were not the Pagan Bishop I would not know that. Our tax money goes to enrich the world's largest corporate group. Time to stop pandering to Special Interests and instead have the well-being of San Diego and its citizens paramount.

We get Fake News in the news media about how a Nazi Stalag is really a wonderful camp for the homeless, fake news about how a new institution is really apartments, fake counts of how many homeless we have, forcing mental health treatments upon our not-mentally-ill homeless in order to cause them mental illness and then "treat" them, billions of dollars wasted with no progress whatsoever on the homeless issue. City Redevelopment tears down a thousand low-cost housing units a year, causing a thousand more homeless every year. That's "Progress"? For whom?

EFFECTS ON ME – Part of Full Disclosure

To thoroughly understand the San Diego homeless problem I had to get inside it. Now I know way more than I ever wanted to know. I know about the "pecking order" of stale bread, for example. The feeding organization must return all bread not used, so that it can be re-inseminated (more dried semen added) and given to the next organization in line. There is a long list of which organizations out-rank others. I ran the Tijuana Rescue Mission for 20 years before I became homeless, and served as San Diego's Buddhist-Atheist Pagan Bishop from 1989 to my retirement in 2017. Now the national print media consider me the Senior Editor for San Diego, which is partially true. I have become Spokesperson for the poor, homeless, elderly, and even the space aliens. And you think YOUR life is complicated? There are

SHOTS CALLED

Lead Editorial of Dec. 2018. San Diego Homeless Editorial Board, John Kitchin, Chairperson.

- 1.) The sale of the Skydiving Building was not legal and must be challenged in court. Mayor Faulconer bought a building from his friend at the Harbor Commission using City money, paying millions of dollars too much, and not approved by the City.
- 2.) We must also block the Housing Navigation Center as a basic waste of money. Until we have some housing to navigate, finding housing that does not exist makes this just another detour in the way of finding housing. It is a scheme to make jobs for the friends and families of San Diego's politicians and government employees, providing not-needed professional services. Nepotism, not housing. It is the "Jobs For Relatives of Politicians Center."
- 3.) HEAP: We are still spending the state "CRUD" (Cronies Ruining Urban Development) money in insane ways. We need huge restrictions on how HUD and CRUD money is spent!
- 4.) We need to stop how much lies and evil Propaganda people are exposed to.
- 5.) Restore the one "Tiny Home" which was installed at the Alpha Project rubber tent. Since this method works to solve the homeless problem in other cities, San Diego has banned it here. The one unit was intended by the City to prove it does not work, so that we can continue to spend money on the families of politicians who continue to "solve" our homeless problem in highly profitable ways that don't work, such as Housing Navigation.
- 6.) Cooperate with Chris Ward, except on his ideas regarding homelessness. Cooperate with Georgette Gomez except for her MTS role as an Uncle Tom.
- 7.) Praise Todd Gloria for demanding an investigation of the Hepatitis A outbreak. Now the State knows the truth, but can never reveal it.
- 8.) Stop creating suicides! We need hot showers and flush toilets downtown!
- 9.) Promote unionization of San Diego, and powerful unions, not weak ones. We call for the United Auto Workers to unionize all San Diegans regardless of where they work.
- 10.) What we really need, to prevent anti-trust real estate price fixing, is a tax on vacant residences. Avoid the tax by renting to whoever you can at Market Price, whatever they can pay. Get as much money as you can, but you cannot hold housing out of rental, just to raise prices, without paying a \$10,000 tax per month per unit.
- 11.) We also need the Encroachment Ordinance found Unconstitutional as it applies to the San Diego homeless and their possessions, plus the

so many things that the news media must keep secret that it becomes a farce. For example, each space alien can carry on over a thousand conversations at the same time without them interfering with one another. The most interesting part is that in becoming their voice, I also became spokesperson for us humans. Bringing humans to this wildlife preserve was a huge mistake. If you thought Earth was a zoo, you're right.

HINTS AND KINKS:

Spirituality, Social Class, and Homelessness

Most important article in this edition

Being poor is frustrating because poor people are fed a lot of human blood and semen in their food, in order that the Ruling Class (and Middle Class) can maintain their Social Class status as superior to them. The homeless, who subsist mainly on donated food, are the people most severely affected by what is called "Spirituality", a system to force love to be given and Socialize people via hypnosis (hyper-Gnosis), the biological process which makes love.

Usually the poor get to be all "**Spermed-Out**" eating the food given to them, and this results in their having a poor memory, being easy to persuade, being hypnotized into having beliefs, suffering from Depression and other mental difficulties, compromised learning skills, doubts about self-worth, having greater aches and pains, difficulties with Motivation, and way more. Add even more human blood and/or semen, and these people go beyond being Spermed-Out to being "Spaced-Out". They may run around preaching Jesus to traffic signals in a very loud voice. They may show symptoms of Bipolar Disease (ManicDepression) or even Schizophrenia (delusional behavior) but it is really pseudo-Bipolar Disease or pseudo-Schizophrenia because it isn't the real disease, just symptoms brought on by too much blood or semen in food or drink. Going for 3 months without the FREE food causes these folks to become entirely normal. I feel sorry for those locked up in mental or behavioral hospitals where the food there contains a whole lot of human blood and semen, to keep those there as mentally ill as possible. That's good for future business, of course.

Things you can do to minimize damage from Gnosis (Spirituality, the "Secret knowledge of God") include refusing to eat the free food, cooking all your own food, using alcohol, using drugs, and/or isolating yourself in a rural forest. This process of maintaining Social Class also makes people into alcoholics, dope addicts, and (seemingly) mentally ill.

Alcohol is the easiest way to keep Gnosis or Spirituality damage minimal, and you need to use very low levels of it, continuously. Beer works good for this, the object being to keep your dose level enough for a slight buzz but not enough to make you drunk nor effect your behavior. Tough to do, but you can learn. The biggest drawback is that persons who use alcohol to avoid the life-ruining hypnosis of Gnosis are extremely likely to become alcoholics, or begin using cocaine or heroin. If they are lucky, they may only become an alcoholic.

Alcoholism involves a combination of nicotine and alcohol, usually, which is why the same major corporations produce both alcohol and cigarettes. So, if you use alcohol, be careful not to smoke, or use other forms of nicotine, or even get near the second-hand smoke of smokers. Nicotine is an addiction that takes 9 months to quit, with severe digestive problems all that while. Compare that with Cocaine, which can be quit in just a few days with no further use of it. Alcohol plus caffeine can also cause alcoholism together.

Why is food "Whacked" with added blood or semen? It makes your love go to the donor whether you like it or not, gives them suggestive and hypnotic abilities over you to teach you religious bullshit, gives them a great memory, fewer aches and pains, easier to learn things, improved multi-tasking, great sex, ability to make friends by giving out love, improved concentration and organizational skills, and more. The person at the top of the Gnosis or Spirituality empire is called a king or queen, the most elite of all Social Classes.

Another way to minimize the damage from Gnosis is to have Spirituality Privileges yourself. You either have to become one of the love-addicted "Zombies" of the religions, where they put your blood into "Holy Communion" and the food supply, or you have to join a labor union or the healthcare profession. You may be able to get such privileges in the food business as well. Contact your labor union. Careful, because receiving human love via Gnosis or Spirituality is 500 times more addictive than heroin. You do NOT want to end up so addicted to love that you put your blood or semen into food and give away that food to the poor and/or homeless. That damages them, making them "Spermed-Out" or "Spaced-Out", just what you have been trying to avoid.

Life goes on, and the only way out is death. San Diego is the City of Death because of how it treats poor people. Move? No, stand and fight. Politics.

IMMIGRANT CARAVAN

These are Metro San Diego's latest 5 thousand new homeless. I once applied to Canada for Political Refugee Status, back when LDS, the Mormon Church, was harassing me so much and so never-ending that I nearly killed myself. You will be able to read that story on myself as a Refugee in some future edition, I hope. It will take months to write.

On the Caravan, lots of Fake News in the media, and I am not going to correct it all and be criticized by everyone for telling the truth. I will, however, point out a few things. The problem began about two years ago, the time President Trump was elected, and changed Foreign Policy regarding Central America. Many persons in Nicaragua, Honduras, El Salvador, and Guatemala have not had a job now for two years running. A few groups that handle international refugee settlement received funding from the United States Republican Party to start an Immigrant Caravan seeking economic asylum in the US. Great care was taken to make it very difficult to trace the money, which was given to one political party, and then another, and then to a nonprofit, and then another nonprofit. The whole thing had to do with justification for Trump's border wall, and nothing else, in the end.

Tear gas was used, and it was real tear gas, Ethylal Bromide, with an added nerve gas, not pepper spray. (I was a Police Chief.) The nerve gas will kill you in 20 minutes unless you run. Most of the tear gas used was the Mexican variety, which comes in sticks like road flares. No nerve gas. It was deployed by the Mexican Federales (Mexican FBI), who also did a splendid job of protecting the US border from the Mexican side. The Mexican Marine Corps, trained at Camp Pendleton (San Diego) also helped with crowd control, and built huge steel barriers to stop the Caravan short of the border fence. I could not send a Reporter due to the danger involved, but I was there personally when the tear gas was deployed.

Central Americans are generally paid about 55 cents US per hour, and have crossed into Mexico for many years, illegally, to make more money. Mexico followed suit, making its Minimum Wage 55 cents an hour to deter immigration. Most Mexicans now earn about \$1.25 per hour US, but must show documents as a Mexican citizen. Undocumented Central Americans still get the 55 cent Minimum Wage, making crossing the border from Guatemala to Mexico not profitable. They can, however, have a better life in Mexico, because it has Social Security, free healthcare, and Food Stamps, as well as disability benefits.

Conclusions: The Caravan was to prove the need for Trump's border wall, which he has been unable to pass despite a Republican-led Congress. Invasion preparations done by the US Marine Corps and Mexican Federales and Marines held very well. It was the Mexican government that prevented chaos. The Caravan immigrants are Metro San Diego's latest 5 thousand new homeless people. Excellent justification for training the Mexican Marine Corps at Camp Pendleton. They protect our border from the south side of it. It was the Mexican Marines who kept the border clear, and that is probably less costly than a wall. Mexico deported about a thousand of the Caravan immigrants, and the US arrested another thousand for crossing illegally. Another thousand returned to Central America, and as many as five thousand remain in Tijuana. Yes, Central America added their mental hospital and prison inmates to the Caravan. Proof we need a border wall? [Redacted number] days until Donald Trump is scheduled to resign. He could not get a Republican Congress to approve his wall, so the idea is probably dead.

NEWS MEDIA NEWS:

(Section by John Kitchin)

This section contains information which pertains both to the news media and poverty at the same time. The News Media are an essential component to the continuation of homelessness, frequently broadcasting or publishing lies or distortions perpetrated by the non-profit organizations and governments that make money on same. This results in a misinformed Public. This has gone on for many years, but is gradually being replaced by the truth. •

If you missed my editorial in the San Diego Reader on December 13, Page 4, "Tearing down the house", I get into the Court Order which gives San Diego homeless the legal right to camp out on all City property, without harassment of "Outreach" nor citations, nor forced cleanups, nor being forced to move. I made a cut-and-paste error and listed

"mental illness" twice in the list of things that do NOT cause homelessness, the second listing should have read "drug abuse" as one of those things. I wish to thank the Reader for publishing it. They have also published replies, and I replied to one. <https://www.sandiegoreader.com/news/2018/dec/12/letters-not-laziness-not-mental-illness-alcoholism/>

There was a reply to my reply, and the San Diego Reader printed it, but did not print my response. •

The San Diego Free Press is scheduled to cease operations. They carried some underground news that came out nowhere else. The Sacramento Zee no longer exists either, and they were a full-blown Underground Newspaper that helped inspire this one. SacZee.com. Their archives are still on-line. Which news medium is the next to feel the pinch of Conservative anti-transparency politics? The struggle for Freedom of the Press has never been tougher. In London, Occupy London could not get one single word of protest into the government-controlled news media. To get some attention, they burned most of Downtown London, which was made a government secret, but leaked out on Facebook. So much for why we have laws mandating Free Press. Nobody burning any cities here. Let's talk and write, instead. •

Lisa Halverstadt, reporter for Voice of San Diego, is now the President of the San Diego Society of Professional Journalists. Their meetings are free, open to the public, and held at the downtown central library. They teach Journalism skills. Lisa's beat does include homeless issues. Two of her latest great articles are linked here:

Important People of 2018: I'm not going to do an all-female list, like CityBeat did, and my list contains 2 attorneys, 5 media, 2 politicians, and 2 activists. Jeeni Criscenzo, Ray Lutz, Michael McConnell, Tom Theisen, Robert Bird, Scott Dreher, Kinsee Morlan, Seth Combs, Lisa Halverstadt, Matt Potter, and Don Bauder. •

Great article by Aaryn Belfer, San Diego CityBeat, Dec. 5, "Concentration camps for kids", describing children in prisons as a homeless issue, and 2300 children alone in a Hitler-camp being a major child-abuse issue. The State of California needs to make the ownership or operation of a private prison a Felony under the Penal Code. •

Gary Warth, in a San Diego Union-Tribune article, page B-1, Dec. 1, "Bill intends to make feeding easier" fails to mention the fact that the reason most states and municipalities require permits to feed poor people is that many persons and/or nonprofits have in the past poisoned the food given out. The most common poison used is human DNA, usually blood or semen, and that makes homeless people mentally ill. •

FAKE NEWS: Gary Warth in the San Diego Union-Tribune writes in "Reaction mixed to departure of Homeless Task Force CEO", Dec. 3, Page B-1, "In Utah, where the population of chronically homeless people greatly decreased over his decade-long term there." NOPE. Fraudulent manipulation of data, definitions, count procedures and Public Relations scams, including Fake News. He did what he was told to do, nothing more nor less. He was brought here to make the San Diego homeless game the same "smoke and mirrors" Public Relations scam that it is in Utah. When I wrote about it, I was taken with a grain of salt. When Tom Theisen pointed out an article written by Lisa Halverstadt, and I linked that in this newspaper, all hell broke loose. The fraudulent count conducted in January 2018 showed 7% fewer homeless, giving San Diego \$6 million less HUD money. They already were getting \$4 million less because of Mayor Faulconer having the Regional Task Force on the Homeless re-organized. Our \$78 million a year in US funding to deal with the homeless problem became \$74 million (Faulconer) and then \$68 million (Walker). At the same time, real San Diego homeless counts went up 2,000 in two years, from 34,000 to now 36,000. I have been using the average of the two, 35,000, as our official number.

Michael McConnell, also a spokesperson for the homeless, called Gordon Walker's departure a "Non-event" and said "Let's hope they can get their act together from here". My temporary solution was to call for skipping a year on the annual count, and work on getting a really good count 13 months from now instead. Nobody is listening to me, and that has always spelled disaster for San Diego. •

Lori Weisberg, in the San Diego Union-Tribune Dec. 5, page C-1 (Business Section) "Westin housekeepers get 40% pay hike after strike" tells how a 30-day strike raised the pay of hotel maids, cooks, bartenders, and similar from \$14 an hour to \$20. That is still well below Poverty Level in high-priced San Diego, but it is livable if you work two jobs.

Unionization, long used by the Republicans to help keep wages low, is now finally being run by a few Real Democrats, demanding some fairness. Bravo. •

Nice article by Jeff McDonald, "Storm-battered shelter to reopen in flood plain", Dec. 16, Page B-1, San Diego Union-Tribune. Pay attention to what homeless advocate Michael McConnell has to say, "There are a lot of things we could be doing in a smarter way." Yup. That is the ONLY reason we have a homeless problem, other than Redevelopment continuing to tear down thousands of more houses all the time. I propose spending only half as much money on the homeless situation, but getting a hundred times more done with that money. •

HEAP, the Homeless Emergency Aid Program, (we call it CRUD, Cronies Ruining Urban Development) will give \$14 million in State funding to San Diego, which will offset the \$10 million in HUD funding lost, except that the State money is a one-time gain and the HUD money is an every-year loss. U-T article by Gary Warth, page B-5 of the Dec. 6 edition. Only \$1.6 million will be used for shelters, the Mayor's \$4.5 million request denied by the City Council.

EDITORIAL: Not one penny will be used to change the number of homeless here, nor build any real housing. This is money wasted, spent to enrich the friends and families of San Diego politicians. It uses the same FAKE and FAILED programs of the past. Your tax money in action, being wasted.

Mexico is now airing Public Service Announcements in Mayan and Aztec, with Spanish subtitles, and vice versa.

Excellent article by Gary Warth in the San Diego Union-Tribune Dec. 8, Page B-1, "Shelter Floods; Homeless Evacuated", regarding the flooding of the Alpha Project (Baptist) shelter tent and the moving of its inhabitants to the Jack Murphy – Qualcomm – SDCCU – Sucker City – Footy McFooty Face - Hostess Twinkies? Stadium. Warth gets into some of the reasons that people become homeless. That is great Journalism, because it helps to bring out the truth, which is what the Profession is all about. Yes, I am really San Diego's Senior Editor.

Gary Warth in the San Diego U-T quotes Jim Vargas, Treasurer of the Regional Task Force on the Homeless and CEO of Father Joe's Villages, as saying that their "Bridge Housing" tent shelter has 45% of families and 30% of women exiting to "housing" successfully. Studies done by the Union-Tribune in the past have suggested an overall success rate at tent occupants finding housing to be a dismal 12.5%. Also the statistic of 30% women may be part of the 45% families figure, not separate from it, as families almost always contain women. Nobody admits that the "housing" found is usually mental hospitals, rehabilitation hospitals for the handicapped, drug hospitals, and concentration camps, not apartments. "Site sought to relocate shelter tent", Dec. 15, Page B-1.

We maintain that a homeless person in San Diego is 30 times more likely to DIE than to find housing, and we devoted an entire edition to that FACT. (See "City of Death"):

FEEDBACK:

1.) Why are your offices in Tijuana? It was the only place we could rent for \$35 a month.

2.) How about more stuff on the UFO aliens? Okay, I will publish excerpts from a Thanksgiving letter to my family back in Milwaukee. **See next article.** There may be an article in this issue about how viruses are mostly war weapons from societies that went extinct trillions of years ago. It is so far being censored out.

Happy Thanksgiving!

I got the results of my MRI brain scan, and there is nothing wrong. I have a "bright spot" (alien tag) and some alien RNA (memory), but many people do. San Diego is a Navy town and the Navy deals with alien species, because the UFOs mostly park at the bottom of the oceans. Their spaceships are 5 to 30 miles in diameter, 90 stories high, huge cities. All the Psychologists and Psychiatrists are familiar with all this, so nobody calls it a mental disorder. The really big aliens (7 feet tall) look almost exactly like we do, as in "God created Man in His own image and likeness." The bible calls aliens "angels". The big ones are gods or Archangels.

I recently discovered that it was the Mormon Mafia that took away my business in Milwaukee and unjustly sent me to prison for Fraud. They do that a lot, too. The whole story is massive, and none of you know 1% of it. The Insurance Company valued my business at \$2 million, which is as much as \$65 million today, 35 years later. San Diego is ironically run by the Mormon Mafia, a coalition of Mormons and Jews, the same families that founded Las Vegas.

My orders from "God" or "the gods" have been to learn as much as possible about as many things as possible, especially hidden things like corruption and the secret societies that run everything, and then pass that knowledge on to the Creators, who built this planet and gene-spliced our DNA. There are many well-hidden things they want to know. What I know that is unusual knowledge would fill many an encyclopedia, so I kind of aspire to become a library. I finally have all of the answers as to why I have always been such an unusual person.

When you die, your memories do not die. They are alive inside of your dead brain cells. You become a thumb-drive. You become a library for the alien beings who wanted to know a whole lot about primitive animals like we humans. They take our memories, make many chemical copies, and each alien swallows an RNA pill, absorbing all of the knowledge of the human donor within a few hours.

They love cherries, berries, honey, and dairy products. This is the planet of milk and honey. They land in remote areas of Upper Michigan to pick berries, and also Northern Wisconsin. I first ran into them in Crandon, near Lake Metonga, on the way to the spring (1957). Thanks for verifying my age at that time as 5 and not 3, as I had written. Mom, the time you went out on your patio and saw a UFO above our house, they were probably looking for me.

Love, John

RELIGION:

SHEEP, GOATS, CATS, CANNABIS-STONED MARIJUANA GARDEN GNOMES, and other things poor people are forced to eat:

Psychological Warfare: I often say "meow" to little children, in a falsetto "kitten" voice, because I maintain that babies and little children are basically the human equivalent of tiny kittens. I explain that to their parents, and they agree. Cute, helpless, emotionally touching, fragile, warm, loving, a being to nurture and help grow. Lots of little children who have heard me now say "meow" to their parents, and that reminds them of their child's role as a little human kitten. The objective is to help prevent child abuse. The luckiest ones, though, are born real kittens, because we have shelters for them but no more space available for our human ones.

Parting thought: If you are God/gods and you create other intelligent life, isn't it entirely unethical to not allow those beings to live forever? Otherwise, you are creating a disposable being, which is not fair to those beings being disposed of.

SNIDE COMMENTS:

Does the term "higher education" nowadays refer to learning to start a pot farm or a micro-brewery? • After Black Friday should be Blacker Saturday and then Blackest Sunday. It refers to black ink, profits, instead of red ink, losses. • San Diego's Mental Health facilities are far more insane than anyone in them. • Having "Friends in high places" must mean that your buddy owns Dope-Mart or Weed-City. • It's the Christmas Cocaine season, so be careful you don't have a White Christmas that becomes a re-run of John Belushi or Karen Carpenter. Oh, that last one is a secret? • I chided one little girl collecting Halloween candy that it is not a good idea to dress up as a ten-year-old hooker. She said, "Mommy is a hooker, and I want to grow up just like her." • If Jack Murphy Stadium was the Murph, should Hostess Twinkies Stadium be the Twink? Or the Ho? Their mascot is a frog in a bikini. Most frogs prefer to remain nude. • New ideas for Barbie, the famous doll who gets into lots of trouble: Homeless Barbie, Prison Inmate Barbie, Hooker Barbie, Stripper Barbie, Sewer Cleaner Barbie, Gang Babe Barbie, Welder Barbie, Trailer Trash Barbie, Car Wash Barbie, Fast Food Barbie, and Hotel Maid Barbie. • For Christmas I marinated a Grinch and stuck him on the barbecue grille. The hardest part of roasting a Christmas Grinch is getting him thru customs. • An ET alien, wanting to contribute to this newspaper, wrote, "Voters shall see the giant eye-chart that is politics 20-20 in 2020." I get it.

Being homeless on the sidewalk is a lot like being at the zoo, except you're the exhibit.

We represent the world's fastest-growing ethnic group, the homeless, the only group that gets NO protection from discrimination in employment, housing, education, nor hate-crimes. We are those who suffer because the wealthy own everything. No one WANTS to be homeless nor CHOOSES to be homeless. It happens when everything you do to prevent it fails to work. Making anything illegal that cannot be prevented makes no sense. Instead, make it illegal for circumstances to force people to become homeless against their will. Once homeless, people will need to use booze or dope, just to stay sane, and many lose that fight, too, becoming mentally ill and often killing themselves. This ends the problems that society forced upon them. Self-Servatives (Con-Servatives, Con Artists that Serve themselves) cause funerals, but they don't mind, because they don't believe in God.

These are the same people who invented God, so they could control you and make money off you. They fill your head with propaganda from the day you are born. The Bar (Democrats and Republicans of the British and Italian Mafias and the Jewish Cabals) licenses attorneys and runs the court system, religious system, and news media. Welcome to Reality! They make money by expanding the population, with major holdings in both real estate and food production. They hate population reduction, and have forced women to have babies, even though herbs for both birth control and pregnancy termination have been available for thousands of years. That is also why they hate same-sex marriage, as it does not automatically produce biological children, and why they hate suicide and birth control, both of which reduce population. They also hate war, unless they can make money on it. "They" is the Middle Templar Bar of London.

The Bar of London is a franchise of the Swiss Nazi Knights Templar, which is descended from the Pharaohs of Ancient Egypt. They operate the World Bank, Freemasons, and Illuminati, as well as the Italian Mafia. Sometimes called the Pharistocracy, or Pharaoh Aristocracy, this group is responsible for there having been kings and queens, as well as the use of hypnosis to control the public via religion. They control the world's food supply, adding drugs to same in order to control and enslave the public. Many of them are not even from this planet.

PHARISTOCRACY • SWISS NAZI TEMPLARS

A "Guild" is a secret conspiracy group that places their blood and semen in the food that everybody eats. In Hoc Signo Vinces, "In this sign you will conquer". Domini Nos Dirige, "Lord (a British Lord, not God) guide us", motto of the City of London, founded 43 AD, and Pagan until 1300 AD. The super-secret Jesuit Knights of Malta are a group that founded the Illuminati of the Rothschild-Rockefeller Family, and part of the New World Order. See the back of a dollar bill. Take some of this with a grain of salt. Below, some of the more modern agencies of these same above groups.
